

## Vallejo Scenics

New references have been incorporated into the range of Diorama Bases, from the Vallejo Scenics category, designed to create the background for vehicles and figures.

This new series of small scenes designed in 3D at a 1/35 scale, is ideal for setting vignettes with figures and small dioramas.

The bases are precast in a new and exclusive type of lightweight resin, which has a matte white finish, easy to cut and adapt to different sizes, which permits easy sanding and painting as well as any further weathering processes.

Not suitable for children under 14 years. Please note that some of the listed models require assembly.

## Diorama Bases - Scale 1/35

**SC007**  
**Kubelwagen Base (Rear)**

Rear section of the popular German Kubelwagen vehicle. The original has been designed in 3D, exclusively for Vallejo and includes a textured base to represent muddy grounds, desert or snow covered terrains. The base is ideal for placing one or two figures.

(5,5x5,5x4 cm)

**SC008**  
**Kubelwagen Base (Front)**

Front section of the popular German Kubelwagen vehicle. The original has been designed in 3D, exclusively for Vallejo, and includes textured ground with rubble and a destroyed brick wall. The base permits placing up to three figures to create a small diorama.

(7x7x6 cm)

**SC009**  
**Ruined Street Corner**

Corner of a destroyed European building, with detailed interiors. Includes a section of cobbled street. Ideal for setting a small diorama with figures.

(7x7x15,5 cm)

**SC010**  
**City Stairs**

Two-level base of a European street section, with stairs. The design allows to place up to three figures for creating vignettes or small dioramas of different periods.

(7x7x6 cm)

**SC011**  
**King Tiger Section**

Section of the German tank "King Tiger". The vehicle has been designed in 3D exclusively for Vallejo and includes part of the hull and turret. The hatches are workable and the figures of the crew can be placed there. The model is ideal for small vignettes with figures and for all fans of armored vehicles.

(8x7x6 cm)

**SC012**  
**WWII Bunker**

Section of a fortified position, typical of WWII. The design includes realistic textures and bullet impacts, and allows to place up to three figures for creating vignettes or small dioramas.

(8x8x8 cm)
