

EFFECTS COLOR SERIE

Effects is our series of sets developed to represent different special effects on fantasy figures and models. Colors and washes have been specifically selected to apply advanced fading and shading techniques, paint complementary elements and achieve different metallic effects on figures and dioramas.

Non Metallic Metal

Ref. 72.193 - 8 x 18 ml / 0.6 fl oz Game Color **NEW ITEM N°**

This color set, meticulously designed by Ángel Giráldez, includes a detailed step-by-step tutorial in which the artist will guide us through the NMM technique, which creates effects that visually appear to be metal (gold and silver) without using metallic paints. You will be able to achieve surprisingly realistic effects on your miniatures. From shimmering silver to lustrous gold, each color is formulated to closely mimic the appearance of real metal. Experience the thrill of creating authentic metallic effects and make your miniatures stand out like never before!
