Inspiring every artist in the world

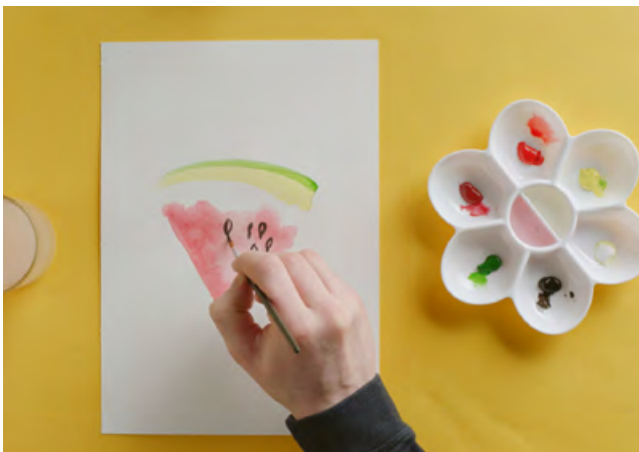

Inspiring every artist in the world

ABOUT US

The Colart Group is the global parent company of the world's most popular art material brands. Taking inspiration from artists to create innovative products, Colart fuels creativity not just for professional artists but for all creative industries and individuals.

From supporting emerging artists through its residency program to developing cadmium-free colours, Colart's mission is to provide sustainable, creative tools and services to release pure expression. The Colart group employs around 1,500 people in 16 countries and its products are sold in over 120 countries worldwide.

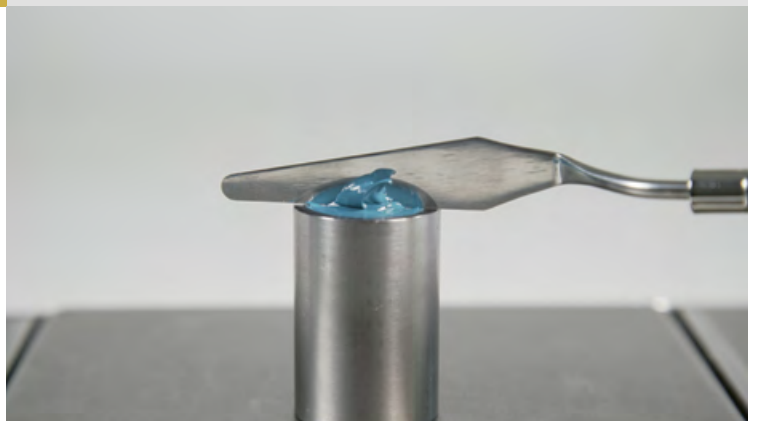

OUR BRANDS

Colart's portfolio includes Winsor & Newton, Lefranc Bourgeois, Liquitex, Conté à Paris, Snazaroo and Viviva. The portfolio enables Colart to reach creatives all over the world, from professional artists to children who are just beginning to explore their creativity.

HISTORY

Artists' colours have been part of Becker's business since 1873. The company acquired Lefranc Bourgeois in 1982, followed by Winsor & Newton in 1990. Colart was formed as a separate business area focused on artists' materials in 1991, since then the group has become a market driver, acquiring one of the leading Chinese artists materials factories in 1997, Liquitex in 2000, Snazaroo in 2005 and most recently, the brand Viviva.

QUALITY & ENVIRONMENT

Our job is to design, manufacture and distribute colours and materials for artistic expression. Our company maintains a progressive approach to constantly meet the expectations of all artists, children, amateurs or professionals, and to be a key player in future developments in our business.

Our challenges:

- Make available to our end customers, the products expected by the markets by controlling our costs, our deadlines and by respecting Colart Quality standards in terms of products, service and regulatory compliance.
- Give consumers access to practical, innovative and environmentally friendly products.
- Allow our employees to maintain and develop their skills as well as to practice their professions in an environment that guarantees their health and safety.
- Preserve **the environment** from possible pollution and reduce the direct or indirect impacts related to our activities, in particular by limiting our consumption of water, energy, by reducing our waste or by optimizing transport.

A set of provisions is in place to respond to these challenges:

- Listening to our customers and users of our products,
- Purchasing, working methods and manufacturing processes under control,
- Objectives and targets established and regularly reviewed in a process of continuous improvement.

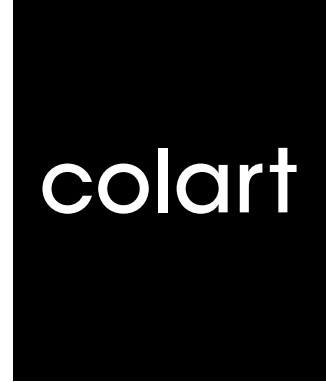

ISO9001 AND ISO14001 CERTIFICATIONS

The ISO9001 and ISO14001 standards are international reference texts containing the requirements for the establishment, documentation, implementation, maintenance and continuous improvement of companies in terms of Quality and Environment.

ISO9001 and ISO14001 certifications are obtained after an audit is conducted by an accredited body that verifies compliance with these requirements. Regular audits then verify the continuation of the continuous improvement process and renew the certificates.

As such, the Colart site in Le Mans, France, has been ISO9001 certified since 1998 and ISO14001 since 2010. The Colart site in Lowestoft, England, has been ISO9001 certified since 1998. The Colart site in Tianjin, China, is also certified ISO9001 and ISO14001 since 2012.

New sustainability report available on our B2B portal

SUSTAINABILITY REPORT 2022-2023

2022 showcases our continued commitment to driving positive change across all aspects of our business. Our operations continued to implement sustainable improvements by focusing on increased efficiency whilst minimising waste, and reducing its environmental impact. More manufacturing and distribution sites worldwide moved to green energy.

Ajita Chamberlain
Sustainability Manager

KPI Results

Energy Objective:

Target to reduce energy consumption whilst increasing our renewable energy share

26%

increase of renewable energy in 2022

CO2 emissions:

Target of 5% reduction per year

15%

Reduction in 2022

WASTE

11.8%

Reduction in water consumption in 2022

24.5%

Decrease of hazardous waste in 2022

50%

target to reduce hazardous waste by 2025

29.86%

waste recycled - target 50%

colart

CERTIFIED B CORPORATION™

A Certified B Corporation™ or B Corp™, is a company that has been verified by B Lab™ to meet rigorous standards of social and environmental performance, transparency, and accountability.

Colart is proud to announce that we have achieved B Corp™ certification in May 2023 for our fine art brands Winsor & Newton, Liquitex, Lefranc Bourgeois, Conte a Paris, and Charbonnel.

This certification is the result of a twoyear process, involving three assessments and a rigorous verification procedure. Over 52 team members directly supported the certification, with many others assisting in data collection and evidence. The collaborative effort across our company has been remarkable, and we take pride in the commitment that led to this achievement.

The certification serves as evidence of our effective governance of social and environmental issues throughout our organisation. We are committed to using our business as a force for good in all our policies, practices, and actions. By joining the B Corp™, community of over 6,500 companies worldwide from 161 industries in 89 countries and over 560,000 workers, we are part of a global movement for an inclusive, equitable, and regenerative economy.

Certified

Corporation

As a B Corp™ in the arts manufacturing industry, we are dedicated to leading our industry community towards positive change. Together with other arts manufacturing businesses, we aim to make a collective impact and contribute to a better future not only for our industry but also beyond.

With this platform our objective is to share with you, our valued customers, the Colart brand and corporate news, marketing support & tools, showcase International best practise and through sharing our collective experience & knowledge, inspire us all to build a better business partnership together.

You will find all relevant information such as communication campaigns, ecommerce, merchandising, NPDs, best practices, training content etc. You will also find the recordings of the webinars and market trends. A dedicated and confidential space is also available for you and your sales manager to store joint business plans, pricing and contracts.

The screenshot shows the Colart B2B Portal homepage. At the top, there is a navigation bar with the Colart logo, a search icon, and links for 'The Base', 'W1 e-learning', 'Customer Area', and 'Sign Out'. Below the navigation bar, a welcome message reads: 'WELCOME TO THE COLART INTERNATIONAL PORTAL. For user experience purposes, we recommend using Chrome rather than Internet explorer. With this platform our objective is to share with you, our valued customers, the Colart Brand and Corporate news, marketing support & tools, showcase International best practise and through sharing our collective experience & knowledge, inspire us all to build a better business partnership together. You will hear our latest news that we will update on a regular basis.'

The main content area is divided into three columns: 'HOW TO GUIDE', 'MASTERCLASS HUB', and 'COMMUNITY HUB'. Under 'HOW TO GUIDE', there is a card for 'B2B PLATFORM PRESENTATION' with a colorful bar chart icon. Under 'MASTERCLASS HUB', there is a card for 'Winsor & Newton Masterclass Hub' with an image of a hand painting. Under 'COMMUNITY HUB', there is a card for 'Winsor & Newton Community Hub' with an image of a person painting.

Below these columns is the 'COLART NEWS' section, which features three news items:

- Colart Sustainability Report 2020-2021**: Accompanied by a green circular graphic. The text states: 'Colart takes sustainability very seriously as our mission to provide sustainable creative tools and services. We have entered a phase of stability which gives Colart the confidence to be more committed than ever to our sustainability agenda. With ambitious targets set up to 2025, we are walking the sustainability talk. To learn more and read the report, please [click here](#). To watch the Colart Sustainability Video, please [click here](#).'
- Colart Group Leadership Team Webinar**: Accompanied by an image of a laptop displaying 'WEBINAR'. The text states: 'Discover the recording of the Group Leadership Team webinar reinforcing our commitment to you and sharing some key messages regarding Colart's Group Performance, as well as updates on our Commercial, Sustainability and Supply Strategies. To watch the recording, please [click here](#). To read the Key Talking Points, [click here](#).'
- On a mission to cut single use plastic**: Accompanied by an image of a person holding a plastic bottle. The text states: 'An independent journalist interviewed UK Manufacturing and Operations Support General Manager, Richard Llewellyn. The article explains what we are doing to be a catalyst for a more sustainable art material industry and how we will find more sustainable alternatives. To read the article, please [click here](#).'

At the bottom of the page is the 'ARTICLES TO READ' section, which features three article cards:

- Maximise ecommerce conversions in 2021**: Accompanied by an image of a person climbing a bar chart. The text states: 'In 2020, many brands pivoted their plans to focus on online channels. This year they will need to align their messaging across all of these platforms, and reinforce their brand guidelines to ensure consistency and consumer trust. In order to optimise conversion rates, brands need to take advantage of all the data available to them. To read the article, please [click here](#).'
- Influencers and marketplaces**: Accompanied by an image of social media influencers. The text states: 'The pandemic has been a catalyst for digital adoption, both for online marketplaces and social media use. At the same time as Amazon and TikTok are recording record sales, so too are social platforms seeing record engagement. Have a look at how brands can use influencers to acquire new customers on marketplaces such as Amazon and TikTok. To read the article, please [click here](#).'
- The 2021 Influencer marketing guide**: Accompanied by an image of a person painting. The text states: 'Influencer marketing has shifted dramatically in the last few years. 8 out of 10 consumers have made a purchase based on a recommendation from an influencer: the connection between social media and commerce is stronger than ever. This guide explains how to manage the tools available for a successful influencer campaign. To read the article, please [click here](#).'

Below the 'ARTICLES TO READ' section are two more article cards:

- Instagram Guide of 2021**: Accompanied by an image of a hand holding a smartphone. The text states: 'The Covid-19 pandemic turned 2020 into a year like no other, and what was once a simple photo-sharing app has now become a key business platform. Just as the platform and its users evolve, your Instagram marketing strategy needs to evolve with it. To read the article, please [click here](#).'
- What do people want post covid?**: Accompanied by an image of a hand pouring pink liquid. The text states: 'As businesses start again, we've been looking at what can be kept from this experience and bring in to the 'normal' ways of working. The start point was to ask the people. To read the article, please [click here](#).'

■ GRIFFIN ALKYD FAST DRYING OIL COLOUR

Griffin Fast Drying oil colours are real oil colours, composed of pigments and of oil modified alkyd resin, the vehicle (oil modified alkyd resin) allows the colour to dry quicker whilst retaining the other characteristics of conventional oil colour. Because alkyd resin has physical properties that differ slightly from those of traditional oils, the pigment load is somewhat different as well. The colour has been formulated to offer the greatest degree of tinting strength possible (consistent with good handling properties), and to take full advantage of the true characteristics of each pigment. Griffin Fast Drying Oils offer a slightly more fluid consistency than traditional oils. All colours in the range remain workable on the palette for 4 to 8 hours, and are touch dry on the canvas in 18 to 24 hours. The drying time will be affected by the thickness of the paint and the temperature of the environment, however. The range of Griffin Fast drying oil colours offers a wide and well-balanced spectrum of 48 colours in tubes of 37 ml.

ARTISAN WATER MIXABLE OIL COLOUR

MADE IN FRANCE

WINSOR & NEWTON

Artisan Water Mixable Oil Colour has been specifically developed to appear and work just like conventional oil colour. The key difference between Artisan and conventional oils is its ability to thin and clean up with water. Traditional solvents are not necessary for Artisan and artists can enjoy a safer painting environment, making it ideal for artists who share a work space, schools or painting at home. The Artisan range consists of 40 colours and has a dedicated range of 10 Artisan solvents, oils, mediums and varnishes, allowing you to achieve all oil painting techniques.

Oils

	<p>ARTISAN WATER MIXABLE LINSEED OIL</p> <p>This reduces the consistency and improves flow of Artisan oil colours. It also increases the gloss and transparency of Artisan.</p>
	<p>ARTISAN SAFFLOWER OIL</p> <p>Some Artisan colours, whites and other pale colours contain Safflower oil in place of or in addition to Linseed Oil. As it is a paler oil, the paler pigments maintain their brightness. If painting a lot with pale colours, you may choose to use Artisan Water Mixable Safflower Oil instead of Linseed to reduce their consistency. It also increases gloss and transparency.</p>
	<p>ARTISAN STAND OIL</p> <p>The flow and leveling of Artisan oil colours is improved by Artisan Stand Oil. It is excellent for glazing and producing fine details as it smoothes brushwork. Drying times are extended.</p>

Mediums

	<p>ARTISAN WATER MIXABLE FAST DRYING MEDIUM</p> <p>This is a very popular medium as it speeds up the drying of Artisan oil colours by about 50%. In addition it improves flow, smoothes brushwork, and increases gloss and transparency. It is excellent for glazing, producing fine details work and is resistant to yellowing.</p>
	<p>ARTISAN WATER MIXABLE IMPASTO MEDIUM</p> <p>This is an impasto and texturing medium for use with Artisan oil colours. Always mix thoroughly into the colour. Build the texture, with impasto medium, in several layers allowing each layer to dry first. This medium helps speed up the drying process of the oil colours.</p>
	<p>ARTISAN WATER MIXABLE PAINTING MEDIUM</p> <p>This medium thins the consistency of Artisan oil colours and aids fine detail work. It also improves the flow and wetting of the colour. It dries slowly to a flexible film and is good for "oiling out".</p>

Thinners

	ARTISAN THINNER			
Artisan water mixable oil colour uses a special thinner for the range. Artisan was developed to avoid the use of hazardous solvents. Although water can be used as a diluent for the colours, its speedy evaporation can make the colour thicken upon the palette much quicker than conventional oil colour would when used with turpentine. To help with this, a special thinner has been developed which maintains an oily feel, improves the quality of the finished work and keeps colour open for longer than water.

■ OILS - MEDIUMS - SOLVENTS - VARNISHES

Winsor & Newton manufactures a wide range of Oils, Mediums, Varnishes and Solvents to cater for all artist's needs.

Oils

	REFINED LINSEED OIL			
Slows the drying rate of colour whilst reducing colour consistency and increasing gloss and transparency.				
Barcode	Product code	Description	MOQ	OC
884955015988	3021748	75 ml - Linseed Oil Refined V1	3	108
884955015964	3039748	250 ml - Linseed Oil Refined V1	1	34

884955015957	3053748	1L - Linseed Oil Refined V1	1	16

Solvents and Thinners

	DISTILLED TURPENTINE			
A highly refined essential oil used as a diluent (thinner) for oil colours and cleaning brushes. Keep tightly closed and away from light to prevent oxidation.				
Barcode	Product code	Description	MOQ	OC
884955015469	3021744	75 ml V1	3	108
884955015575	3039744	250 ml V1	1	34
884955015582	3049744	500 ml V1	1	22
884955015568	3053744	1L V1	1	16

	SANSODOR - LOW ODOUR SOLVENT			
A low odour diluent (thinner). Slow to evaporate and therefore useful in controlling Alkyd and oil colours. Does not deteriorate on storage.				
Barcode	Product code	Description	MOQ	OC
884955017180	3021757	75 ml V1	3	108

Painting primer

	A ready-to-use primer in a non-yellowing oil-modified alkyd resin medium. No thinning or stirring is required. Oil Painting Primer can be applied directly to metal or porous surfaces (glue-sized canvas, untreated wood, hardwood, plywood, paper) with virtually no sinking in. A small amount of oil colour can be mixed into the Oil Painting Primer for tinted priming. The treated ground then accepts oil colours easily and without chalkiness or absorbency.

094376904475	3054994	Painting Primer 1 LV1	1	8

Mediums

	PAINTING MEDIUM			
Thins the colour consistency, improves flow and wetting, slows drying, increase the durability of the film and is resistant to yellowing.				
Barcode	Product code	Description	MOQ	OC
884955014325	3021734	Painting Medium 75 ml V1	3	108
884955014301	3039734	Painting Medium 250 ml V1	1	34
884955014318	3049734	Painting Medium 500 ml V1	1	22

Solvents and Thinners

	WHITE SPIRIT			
A volatile, flammable diluent (thinner) for oil colours and the cleaning of brushes. Designed for oil colours and alkyds. Slower drying than Turpentine. Does not deteriorate on storage.				
Barcode	Product code	Description	MOQ	OC
884955014950	3053738	1L V1	1	16

	ARTISTS PICTURE CLEANER			
Designed for the cleaning of varnished paintings, it works by dissolving linseed oil oxidation and will remove surface dirt and the products of oxidation in the old varnish.				
Barcode	Product code	Description	MOQ	OC
884955014462	3021735	75 ml V1	3	108
884955014448	3039735	250 ml V1	1	34
884955014455	3049735	500 ml V1	1	22

Mediums are additives which alter or enhance the characteristics of the colour. They are used to change the rate of drying, increase gloss, improve flow or provide texture. Mediums are based on the binders used in milling the colours: linseed oil, alkyd resin and modified oils for water mixable oils. All mediums should be used in moderation: they are intended only as an additive to the colour. In addition, avoid adding multiple mediums to the colour.

Liquin

LIQUIN ORIGINAL
The original Liquin formula is a firm favourite with artists. It is a general purpose semi-gloss medium which speeds drying, reduces brush stroke retention and resists yellowing.

Barcode	Product code	Description	MOQ	OC
884955016404	3021751	Liquin Original 75 ml V1	3	108
884955016381	3039751	Liquin Original 250 ml V1	1	34
884955016398	3049751	Liquin Original 500 ml V1	1	22

PROFESSIONAL WATERCOLOUR

A selection of vibrant colours featuring 109 colours, including 80 single pigment colours, our Professional Watercolours range offers a selection of vibrant colours with unparalleled rendering to help you create stunning colour blends. 106 of the 109 colours in our range of Professional Watercolours are classified as "optimal archive preservation" and rated AA or A based on the degree of permanence, to ensure that the colours used today will remain the same for generations to come.

8 new Professional Watercolours (N) in the table) will be available to order in the second half of the year 2024.

DESIGNERS GOUACHE

Winsor & Newton have been producing Designers Gouache since 1935 and to this day we continue to offer the finest artists' gouache range available.

Designers Gouache colours are a range of opaque watercolours, mainly used by designers, illustrators and commercial artists to create vibrant illustrations in solid colour. Gouache is also widely used in fine art as an opaque watercolour. Today the Designers Gouache range benefits from significant developments in technology and is smoother, flatter, more opaque and more brilliant than ever before.

■ WATERCOLOUR MEDIUMS

Winsor & Newton Watercolour Mediums are used to change the rate of drying, increase gloss, improve flow or provide texture. They provide watercolourists with limitless opportunities to apply many variations of their watercolour paintings.

AQUAPASTO
Aquapasto is a translucent gel which thickens watercolours and gouache to give an impasto effect. Carefully clean the brushes after use.

Barcode	Product code	Description	MOQ	OC
884955017289	3019758	60 ml Aquapasto V1	3	105

ART MASKING FLUID
A liquid with added pigmentation for masking areas of work needing protection when colour is applied in broad washes. Composed of rubber latex and pigment. For best results remove as soon as possible after application.

Barcode	Product code	Description	MOQ	OC
884955017371	3021759	75 ml Art Masking Fluid V1	3	108
884955017364	3039759	250 ml Art Masking Fluid V1	1	34

COLOURLESS ART MASKING FLUID
A colourless liquid for masking areas of work needing protection when colour is applied in broad washes. Specifically designed for soft sized papers to avoid staining. For best results remove as soon as possible after application.

Barcode	Product code	Description	MOQ	OC
884955017562	3021761	75 ml Colourless Art Masking Fluid V1	3	108

GUM ARABIC
A pale coloured solution that controls spread of wet colour, reduces staining and slows drying. It can be thinned with water.

Barcode	Product code	Description	MOQ	OC
884955017722	3021763	75 ml Gum Arabic V1	3	108

OX GALL LIQUID
A wetting agent used to improve flow when mixed directly with watercolours. It can also be used on very hard sized papers to reduce surface tension.

Barcode	Product code	Description	MOQ	OC
884955017968	3021766	75 ml Ox Gall Liquid V1	3	108

GRANULATION MEDIUM
Gives a mottled or granular appearance to colours which usually give a smooth wash.

Barcode	Product code	Description	MOQ	OC
884955017647	3021762	75 ml Granulation Medium V1	3	108

LIFTING PREPARATION
Allows dry washes, including staining colours, to be more easily lifted from paper with a wet brush or rag.

Barcode	Product code	Description	MOQ	OC
884955017883	3021765	75 ml Lifting Preparation V1	3	108

PERMANENT MASKING MEDIUM
Used to mask specific areas of paper, making it resistant to water and colour. Can be mixed with watercolours.

Barcode	Product code	Description	MOQ	OC
884955018040	3021767	75 ml Masking Medium V1	3	108

BLENDING MEDIUM
This liquid is used to slow down the drying rate of watercolours allowing more time for blending. Especially useful in hot climates.

Barcode	Product code	Description	MOQ	OC
884955017470	3021760	75 ml Blending Medium V1	3	108

TEXTURE MEDIUM
Contains fine particles and can be used to give the impression of depth and structure to watercolour paintings.

Barcode	Product code	Description	MOQ	OC
884955018125	3021768	75 ml Texture Medium V1	3	108

IRIDESCENT MEDIUM
Gives pearlescent or glitter effects to watercolours.

Barcode	Product code	Description	MOQ	OC
884955017807	3021764	75 ml Iridescent Medium V1	3	108

■ GALERIA ACRYLIC COLOURS

Galeria Acrylic Colour is a high quality acrylic which delivers professional results and is ideal for artists who want good quality colour at an affordable price. All of the 60 colours in the Galeria Acrylic range offer a wide spectrum of pigment characteristics to choose from as well as excellent brilliance of colour, high levels of pigment strength, opacity and permanence, strong brush stroke retention, clean colour and a smooth, satin finish.

PROFESSIONAL ACRYLIC MEDIUMS

MADE IN FRANCE

WINSOR & NEWTON

Gesso

	CLEAR GESSO A gesso made from unpigmented clear resin which dries completely clear. Can also be used to make your own coloured gesso primers by the addition of acrylic colours. With a balanced absorbency and excellent tooth this gesso creates the perfect surface upon which to paint.			
	WHITE GESSO A gesso with a superior level of pigmentation giving maximum covering power. Creates an ideal surface to paint on offering excellent tooth and a balanced absorbency.

Varnish

	VARNISH Varnishes are the final coatings which protect finished work from the build-up of airborne pollutants, dirt and grease. All Artists' Acrylic varnishes have the added benefit of offering UV protection to safeguard against fading. They have been carefully formulated to work with Artists' Acrylic colour to provide superior long lasting protection. Available in gloss, matte and satin finish.
	ACRYLIC VARNISH REMOVER Safely removes varnish without damage to paintings. Will remove Artists' Acrylic Gloss, Matte and Satin Varnishes so paintings can be cleaned and re-varnished.

Mediums

	GLAZING MEDIUM Maintains no colour shift from wet to dry when used with Artists' Acrylic. It is the best medium for glazing, giving maximum transparency and brilliant, flowing colour with good levelling. It dries to a completely clear flexible film with a high gloss finish.
	GLOSS MEDIUM Maintains no colour shift from wet to dry when used with Artists' Acrylic. Increases the depth, transparency and flow of colour for blending or fine detail and provides an even gloss finish.
	GLOSS GEL Maintains no colour shift from wet to dry when used with Artists' Acrylic. Increases transparency, depth and gloss of colour and maintains the thickness of the colour with good brush stroke retention. Dries to an even gloss finish.
	MATTE MEDIUM Gives colour a matte finish whilst also improving transparency and flow of the colour, great for blending or fine detail.

Barcode	Product code	Description	MOQ	OC
884955001721	3030934	125 ml Glazing Medium	3	120
884955001820	3040934	250 ml Glazing Medium	1	38

884955001967	3050936	500 ml Matte Medium	1	27

	MATTE GEL Gives colour a matte finish whilst also maintaining the thickness of the colour with good brush stroke retention.
	MODELING PASTE This modelling paste is lightweight and flexible so it doesn't shrink or crack. Increases opacity, body and structure and is ideal for carving, sanding and building extreme textures. It can be used to build up depth in layers, and either overpainted when dry or mixed with colour. Dries to an even matte finish.
	SLOW-DRY MEDIUM Maintains no colour shift from wet to dry when used with Artists' Acrylic. Slows drying to give more working time of colour for extended blending and manipulation.

	FLOW IMPROVER Maintains no colour shift from wet to dry when used with Artists' Acrylic. Increases the flow of colour allowing the application of areas of flat, even colour without changing colour strength. Also maintains the stability of colour and slightly slows drying.

■ PROMARKER BRUSH

Promarker Brush are equipped with a multi-purpose brush tip: made up of two highly resistant materials, it offers unequalled precision and line control for the marker. Promarker Brush markers contain the same alcohol- and colourant-based ink as Promarker markers, offering an impeccable, streak-free finish. They are available in a palette of 72 colours (71 + 1 blender), 4 of which are unique to the Promarker Brush range. Promarker Brush are double-tip markers, featuring one brush nib and one broad nib. The width of the line can be precisely controlled simply by varying the angle and pressure applied to the brush nib. The broad nib is ideal for creating quick images and filling in large areas.

WATERCOLOUR PROMARKER

Introducing Winsor & Newton Watercolour Promarker, a range of highly pigmented water-based markers which deliver superb colour performance with added precision.

One of our latest innovations, adding a new dimension to watercolour, the markers are expertly crafted with dual nibs to enable you to achieve unrivalled definition and control. Each marker has a fine point on one end and a flexible brush on the other, helping you create a variety of stunning, sweeping line thicknesses and superior detailing. The colour is easily blended with water to create soft and vibrant watercolour washes.

Blending will vary accordingly to the paper used; for optimum results use with Winsor & Newton Watercolour Marker Pads.

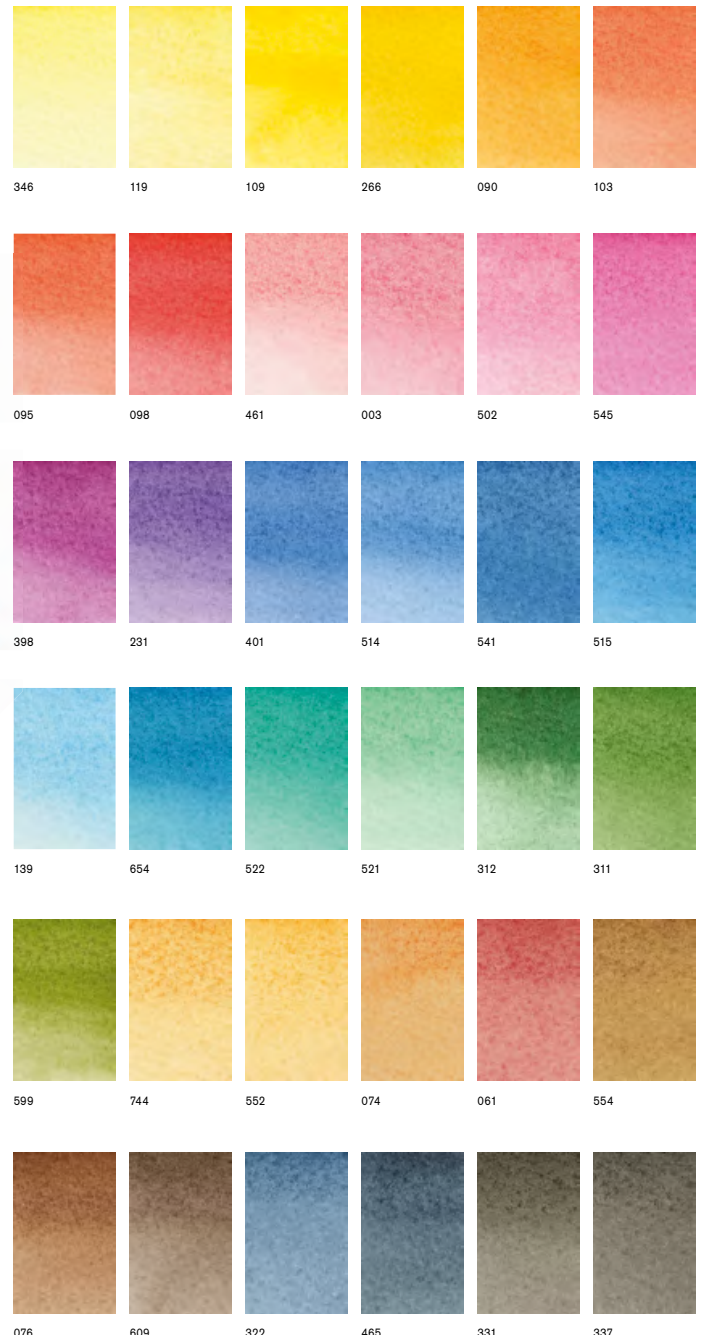

Winsor & Newton's commitment to sustainability

Promarker Metallic offers intense and sparkling metallic colours, perfect for enhancing and texturing your patterns. The pigment-based ink used for these markers has a perfect degree of lightfastness, allowing you to achieve lasting results. It mixes well with water to create extra metallic effects. The markers come with two tips: one wide to fill large areas and one finer for detail work.

■ PASTELS

As experts in colour for nearly 200 years, all our materials are made to the highest standard using quality, fine art pigments. Our artist-grade pigments provide outstanding light resistance, so artworks retain their vibrancy for longer. Each pastel stick is carefully wrapped by hand in translucent paper to keep it clean, and clearly labelled to aid colour selection. The wrapper protects artists' fingers and is easily peeled away, to ensure a pure colour finish every time. Our pastels are available in sets of 15 or 30 sticks, presented in a convenient tin-metal carry case to protect each pastel stick and ensure a clean working environment. Our pastels are perfectly matched to use with Winsor & Newton pastel paper pads or canvases. We recommend using Winsor & Newton professional fixative spray to preserve and enjoy your work.

■ CALLIGRAPHY INKS

Calligraphy - meaning the art of beautiful writing, has been used in various forms since ancient times. From ancient Greece and Rome to the Middle Ages, calligraphy was seen as both a skilled art and the main source of written communication and expression until the invention of the printing press. Calligraphy today is increasingly popular and is enjoyed by professional and amateur artists from all over the world. Winsor & Newton have used their expertise in the production of fine inks since the 1890s to create a wide range of 18 colours which are brilliant and lightfast, allowing today's calligraphers to continue to create this important and flourishing art form.

DRAWING INKS

Today they are formulated from a series of soluble dyes in a superior shellac solution.

These inks can be applied with brush, dip pen or airbrush and are widely used by designers, calligraphers and artists as well as illustrators.

- Superior strength and brilliance of colour.
- Fast drying, water resistant and transparent.
- Water resistant except Liquid Indian Ink, Gold and Silver.

SERIES 7

Series 7 is the world's finest watercolour brush. The standards of quality for this brush were set in 1866, when Her Majesty Queen Victoria gave orders that Winsor & Newton should produce the very finest watercolour brushes in her favourite size; the No.7. ay, Series 7 is manufactured from only the finest pure Kolinsky Sable hair, in rust-proof, seamless nickel plated ferrules with black polished handles.

COTMAN BRUSHES

Cotman brushes are a range of pure synthetic watercolour brushes of the highest quality that have been created using the same skills, generated over many years, as those used in making the finest sable brushes. For over 150 years our brush makers have applied their knowledge to produce brushes of the highest standard. As new materials have become available we have used our experience to produce new ranges of brushes, each with their own benefits. Cotman brushes were the first complete range of synthetic brushes to be developed by Winsor & Newton.

ARTIST'S HOG BRUSHES

Artists' Hog is our highest quality hog brush and provides a level of performance that is unrivalled. It is made from the finest materials with the highest level of craftsmanship, and achieves the degree of sensitivity demanded by discerning artists. By using the finest chungking hog bristles, the hair is extremely resilient and the brush retains its working edge and shape for far longer. The bristles are also 'flagged' (i.e. split at the ends) giving the brush the ability to carry more colour and then to apply it evenly to the surface. The natural curve of the bristle is utilised to produce a consistent shape.

BRUSHES FOR OIL

MONARCH

Monarch is a professional synthetic hair brush that mimics the look and feel of natural Mongoose hair (now an endangered species). Just like Mongoose hair, the polyester filaments in Monarch provide a stiffer alternative to sable hair but are softer than hog bristle which means this brush is excellent for subtle blending, glazing and fine detail work. In addition, because Monarch is synthetic it is more durable than natural hair and has more spring making it better for moving heavy bodied oil colour as well as being less prone to damage from solvents or paint. Monarch is suitable for oil colour, water mixable oil colour or acrylic colour painting. It has a distinct appearance with hair that is variegated in shades of ivory, gold, brown and each brush has a gold ferrule attached to a long dark brown lacquered handle.

AZANTA BLACK BRUSHES

This range is great for beginners because as well as being inexpensive it is also really versatile as it's suitable for use with Oil, Griffin Alkyd Fast Drying Oil and Acrylic colours. All elements of the brush have been improved starting with better dressed, cleaner looking hair. We've used good quality hog hair, with a good degree of stiffness which is great for working with thick bodied oil or acrylic colour. To help withstand frequent cleaning we've chosen a high quality corrosion resistant nickel ferrule so that the brush will last longer. Finally, to add a contemporary touch, we've finished the brush with a stylish matte black handle. Azanta Black offers brushes in both short handle, for close up detailed work, and long handle, for easel painting.

ARTISAN BRUSHES

Artisan brushes have been specifically designed to have the performance characteristics of hog bristle yet maintain their spring and shape when in contact with water, particularly during long painting sessions with water mixable oil colours. Developed with a unique blend of high quality synthetic fibres, the brushes are strong and durable and are perfect for working with thick, full bodied colour straight from the tube.

WINTON BRUSHES

Winton Hog Brushes have been developed for use with Winton Oil Colour and can also be used with all other oils, alkyds and acrylic colours. Using the skills and knowledge of over 150 years of brush making, the Winton Hog Brush range offers excellent quality at an affordable price. Winton brushes are made from good quality hog bristles and are hand-set into seamless corrosion-resistant ferrules. The natural curve of the hog bristle produces a resilient brush which retains its 'turned in' shape even after heavy use, allowing the artist more control and accuracy, whether painting with oils, alkyds or acrylics. The solid wood handles have a green stained finish with five coats of lacquer which provide protection along with a smooth finish for ease of use.

GALERIA ACRYLIC BRUSHES

Galeria brushes have been specifically designed for use with acrylic colour. The versatility of acrylic colour places heavy demands on any brush which is why we created Galeria brushes to be strong and resilient, whilst offering flexibility and sensitivity in use. The unique mix of synthetic filaments has been developed to provide artists with perfect control for thicker application of colour and responsiveness, whilst maintaining excellent shape retention.

UNIVERSITY BRUSHES

University is a range of white synthetic general-purpose artists' brushes with distinctive red handles and white tips. Manufactured to our high standards, these brushes are stiff enough to use with slightly more fluid oils and acrylics yet soft enough to use with watercolours making University a genuine all-purpose range. The polyester filaments in University brushes give smoother brush marks compared to hog hair making them excellent for fluid oils and acrylics with less visible brush strokes. The polyester also offers excellent spring and head shape retention and will last a considerable length of time if properly cared for.

- 100% cotton watercolour paper made on a traditional cylinder mould
- Offers the highest quality surface for smooth, even washes, preserving lustre and transparency of colour.
- Cotton fibres are internally and externally sized for optimal absorbency and extreme strength.
- Acid-free and free of optical brighteners, offers a bright natural whiteness of archival quality, that does not yellow over time.
- This range is available in different formats, weights (300/640 gsm) and textures such as cold-press, hot press and rough

■ WATERCOLOUR PAPER

- A 25% cotton, cold pressed slightly textured paper, ideal for most watercolour styles, gouache, pen and ink. Archival
- Mixture of cotton and cellulose
- Reflects light well, retaining the transparency of watercolours and its medium grain makes it suitable for all styles of watercolour painting.
- Cotton fibres are internally and externally sized for optimal absorbency and extreme strength.
- Acid-free and free of optical brighteners, offers a bright natural whiteness of archival quality, that does not yellow over time.

■ PASTEL PAPER

- Made with a high cotton content and is dyed in the pulp to give an appropriate texture, as well as strength and permanence
 - Neutrally sized, it presents a grainy, rough surface offering a very good pigment uptake.
 - Free from acids and optical brighteners, this paper is of archival quality for stability and resistance to ageing.
 - Made using hydroelectric power to reduce greenhouse emissions and FSC-certified pulp to protect forests.
- Ideal for sketching and drawing with pastel, graphite, charcoal, sanguine, or other mediums that emphasise shading and highlighting techniques. It can also be used for other arts and crafts.
- It is available in two pallets of 6 assorted, highly lightfast colours

■ DRAWING PAPER

- Cartridge paper of a natural white colour
- Acid-free and of archival quality to prevent yellowing.
- The surface is internally and externally sized to ensure long term stability
- Available in a choice of surfaces:
 - Medium grain: a textural surface, ideal for pencil, coloured pencil, pastel and charcoal.
 - Smooth grain: an even surface, ideal for pens, and ink, pencil and coloured pencil.
- And weights:
 - Medium weight: 150 g/m² / 70 lb for natural sketching and drawing across all dry media
 - Heavyweight: 220 g/m² / 100 lb for vigorous work or very light washes without risk of ripping or cockling.

BLEEDPROOF MARKER PAPER

- Bleedproof, smooth marker paper specially treated for superior performance to ensure rich colours and precise lines.
- Coated in one side, it is designed to prevent ink bleed and avoid paper soak through.
- Colours can be easily and smoothly blended using a blender marker, for unlimited tonal variations.
- As it is thin and semi-transparent, this paper can also be used as layout paper.
- This paper is chlorine and acid-free to avoid yellowing and it is made using FSC-certified pulp to protect forests.
- It is an optimal surface for all types of alcohol-based markers.

■ BLACK PAPER

Mixed-media heavyweight black paper is a versatile, multipurpose surface for a variety of design, crafts and decorative arts. This quality black-tinted paper is particularly effective with white, opaque, and metallic colours, either in ink, marker, or across other wet and dry techniques. Whites stand out boldly for layering and highlighting effects and luminous, shimmery designs are easily created using a range of metallic shades. Acid-free. Not FSC.

BIO-BASED HEAVY ACRYLICS AND MEDIUMS

A revolutionary new range in terms of innovation and durability. The only one on the market tested and approved by artists. A range of products with an average 50% bio-based content: the highest percentage of lightfast, archival-quality acrylic paints and mediums on the market.

Bio-Based Heavy Acrylics:

- Thick viscosity, lightfast, high pigment concentration, archival quality.
- 40 colours in 75 ml and 500 ml
- 2 Sets:
 - 4 x 75 ml Mix (all 3 primaries + white)
 - 4 x 75 ml Exploration

Heavy Body colours have a butter-like consistency and offer a similar performance to oil.

When dry, the brushes and knives strokes remain, the colours are supple and enable the overloaded surface to resist to cracks and chips.
 These are excellent colours for thickening. Very easy to dilute. Highly pigmented.
 The range includes 116 shades.

SOFT BODY ACRYLIC

MADE IN FRANCE

liquitex®

LIQUITEX

Soft Body Acrylic provides very intense and permanent colours, with a similar consistency to a thick cream. They give a smooth and flat surface when drying. They enable a very easy dilution with water and/or the mediums.

The pigment strength is equivalent to that of Heavy Body*. Those colours suit ideally the covering of large surfaces, for fine details, glazes, application of a primer, airbrush painting, on fabric, watercolour technique, frescos. 99 colours.

*No brush strokes.

Liquitex Acrylic Ink cleaner for pens is perfect for cleaning ink from brushes, technical drawing pens, pen-holders and airbrush parts.

Simply rinse them with a small amount of Acrylic Ink pen cleaner to remove the traces of ink. If ink has dried on your brushes or pens, soak them in Liquitex Professional Acrylic Ink pen cleaner for a few minutes, then rinse them in water.

P Primary colour

This larger nozzle is better for covering larger areas, creating effects and coating pieces, thanks to a better pigment dispersion.

Laboratory testing shows that this nozzle offers artists a greater dispersal of pigments by reducing blockages.

*While stocks last

The Liquitex mediums and additives offer a large panel of choice: from surface preparation to fluid and gel mediums, effects and varnish.

SURFACE PREP

GESSO
The classic white sealer and ground for absorbent surfaces, such as canvas, paper, or wood. Provides the proper surface sizing, tooth and absorbency for acrylic and oil paints. One coat is usually enough. Traditional gesso is meant to be opaque titanium white for good coverage. Two coats are recommended under oil colour.

Barcode	Description	MOQ	OC
094376923933	Acrylic Gesso 118 ml	1	60
094376923940	Acrylic Gesso 237 ml	1	40
094376923957	Acrylic Gesso 473 ml	1	28
094376924046	Acrylic Gesso 946 ml	1	15
094376924053	Acrylic Gesso 1.89 L	1	4
094376924060	Acrylic Gesso 3.78 L	1	1

CLEAR GESSO
A very clear size and ground that keeps the working surface visible. Clear Gesso provides an ideal degree of tooth for pastel, oil pastel, graphite, and charcoal as well as an excellent ground for acrylic and oil paints. This gesso is ideal for painting over coloured or patterned surfaces or over an under drawing. Mix with acrylic colour to establish a tinted transparent/translucent ground. Dries clear to translucent depending on thickness. One coat is usually enough.

Barcode	Description	MOQ	OC
094376931655	Acrylic Gesso Transparent 118 ml	1	60
094376931662	Acrylic Gesso Transparent 237 ml	1	40
094376931679	Acrylic Gesso Transparent 473 ml	1	28
094376932171	Acrylic Gesso Transparent 946 ml	1	17
094376932188	Acrylic Gesso Transparent 3.78 L	1	1
887452061908	Acrylic Gesso Transparent 1.89 L	1	1

SUPER HEAVY GESSO
An innovative, impasto, titanium white gesso having the ability to hold sculptural shape. Provides all the attributes of traditional acrylic gesso. Ideal for thick and sculptural application with a knife or brush.

Barcode	Description	MOQ	OC
094376931754	Super Heavy Gesso 237 ml	1	56
094376945737	Super Heavy Gesso 946 ml	1	12

COLOURED GESSO
Establishes a colour ground while providing all the attributes of traditional acrylic gesso. Some artists like to start their work on a coloured ground to reflect the painting process in a different way. One coat is usually enough. As with traditional gesso, coloured gesso also gives opaque surface coverage.

Barcode	Description	MOQ	OC
094376923988	Gesso Black 237 ml	1	40
094376924008	Gesso Grey 237 ml	1	40

FLUID MEDIUMS

GLOSS MEDIUM & VARNISH
The workhorse of the Liquitex mediums range. Gloss Medium & Varnish is an all-purpose medium that performs two functions. It can be used as a varnish and/or a fluid gloss medium. It improves adhesion of paint film and increases colour depth, intensity, and gloss. It can also be used as a non-removable varnish to protect the surface and establish an even gloss sheen.

Barcode	Description	MOQ	OC
094376923780	Gloss Medium 118 ml	1	60
094376923797	Gloss Medium 237 ml	1	40
094376923803	Gloss Medium 473 ml	1	28
094376923810	Gloss Medium 946 ml	1	17
094376923827	Gloss Medium 3.78 L	1	1
887452061915	Gloss Medium 1.89 L	1	1

MATTE MEDIUM
A classic medium used to give fluidity to delicate brushwork or to act as a low sheen adhesive for collage. This medium has a creamy consistency and is great with opaque colours. Mix with Gloss Medium & Varnish to create a customized satin effect.

Barcode	Description	MOQ	OC
094376923834	Matte Medium 118 ml	1	60
094376923841	Matte Medium 237 ml	1	40
094376923858	Matte Medium 473 ml	1	28
094376923872	Matte Medium 946 ml	1	17
094376923889	Matte Medium 3.78 L	1	1
887452061922	Matte Medium 1.89 L	1	1

ULTRA MATTE MEDIUM
A fluid with high resin solids that dries to a matte finish. Ultra Matte Medium is used to maintain opacity and extend opaque colours to double amounts, without changing the colour. Ideal for large projects where transparency is not desired. Dries to a dead matte finish with absolutely no level of sheen.

Barcode	Description	MOQ	OC
094376924152	Ultra Matte Medium 237 ml	1	40
094376924169	Ultra Matte Medium 473 ml	1	28

PALETTE WETTING SPRAY
An innovative fluid acrylic resin designed to slow the drying of colours. Spray onto your palette or directly onto the surface of a painting. This medium improves colour blending and can be used to thin colour while maintaining film integrity. Use repeatedly to prevent paint from "skinning over."

Barcode	Description	MOQ	OC
094376945782	Palette Wetting Spray 237 ml	1	40

GLAZING MEDIUM
Use when maximum transparency is required to add luminosity and depth to your paintings. This fluid medium can be used to create brilliant glazes when mixed with transparent colour. Glazing Medium dries quickly for rapid layering and tends to minimize or eliminate brush strokes. Mix with Slow-Dri Blending Medium or Slow-Dri Fluid Retarder to extend the working time.

Barcode	Description	MOQ	OC
094376931587	Glazing Medium 118 ml	1	60
094376931594	Glazing Medium 237 ml	1	40
094376931600	Glazing Medium 473 ml	1	28
094376932935	Glazing Medium 946 ml	1	17

SLOW-DRI BLENDING MEDIUM
An essential medium for creating softer edges and modeled forms. This medium is used to extend the "open" time of acrylics by more than 40%, giving you an opportunity to really work the paint to enhance colour blending. You can add up to 50% of this medium, as it contains binder to retain the integrity of the paint film, unlike the additives version.

Barcode	Description	MOQ	OC
094376931457	SLOW-DRI® Medium 118 ml	1	60
094376931433	SLOW-DRI® Medium 237 ml	1	40
094376931440	SLOW-DRI® Medium 473 ml	1	28

SATIN FLUID MEDIUM
A fluid medium with a satin sheen finish. It increases colour saturation and brightness, and lower the viscosity of heavier body paints, giving increased flow.

Barcode	Description	MOQ	OC
887452047582	Satin Fluid Medium 237 ml	1	40

GEL MEDIUMS

GLOSS GEL
Excellent for retaining brush marks while slowing the drying time and adding body to the paint. Mix with transparent colours for impasto glazes of great depth and brilliance.
Excellent for transferring printed images.

Barcode	Description	MOQ	OC
094376924183	Gloss Medium 237 ml	1	56
094376924190	Gloss Medium 473 ml	1	17
094376924206	Gloss Medium 946 ml	1	12
094376924213	Gloss Medium 3.78 L	1	1
887452061939	Gloss Medium 1.89 L	1	1

GLOSS HEAVY GEL
A very thick gel medium that extends working time and increases brilliance and transparency. Mix with acrylic paint to increase body and attain oil paint like consistency that holds brush or palette knife marks.

Barcode	Description	MOQ	OC
094376923865	Gloss Heavy Gel 237 ml	1	56
094376929782	Gloss Heavy Gel 473 ml	1	17
094376931280	Gloss Heavy Gel 3.78 L	1	1

GLOSS SUPER HEAVY GEL
A super thick gel with high surface drag used to create a stiff "oil-like" feel. Ideal for creating high peaks and sculptural applications that hold shape when dry, with minimal shrinkage. This medium keeps paint workable longer than most other gel mediums.

Barcode	Description	MOQ	OC
094376931532	Gloss Super Heavy Gel 237 ml	1	56
094376931549	Gloss Super Heavy Gel 473 ml	1	17
094376931556	Gloss Super Heavy Gel 946 ml	1	12
094376931563	Gloss Super Heavy Gel 3.78 L	1	1

MATTE GEL
A thick gel that imparts a translucent matte sheen when dry. Ideal for creating collages with heavier objects. Combine with Gloss Gel to create a customized satin finish.

Barcode	Description	MOQ	OC
094376924039	Matte Gel 237 ml	1	56
094376931327	Matte Gel 473 ml	1	17
094376931334	Matte Gel 946 ml	1	12
094376934182	Matte Gel 3.78 L	1	1
887452061946	Matte Gel 1.89 L	1	1

MATTE SUPER HEAVY GEL
A super thick gel which retains high-peaks and crisp brush and knife strokes with very little shrinkage. This medium keeps paint workable longer than most other gel mediums and dries to a translucent matte finish.

Barcode	Description	MOQ	OC
094376945799	Matte Super Heavy Gel 237 ml	1	56
094376945805	Matte Super Heavy Gel 473 ml	1	17
094376945812	Matte Super Heavy Gel 946 ml	1	12

ULTRA MATTE GEL
A gel with high resin solids that dries to a matte finish. Maintains colour opacity and extends paint to double amounts without changing colour position. This product is meant to be used with opaque colours where transparency is not desired. Dries to a dead matte finish with absolutely no level of sheen.

Barcode	Description	MOQ	OC
094376924091	Ultra Matte Gel 237 ml	1	56

SLOW-DRI® BLENDING GEL
A heavy body gel used to extend the "open" time of acrylics by more than 40% for easier blending. Add up to 50% without jeopardizing the strength of the paint film to achieve excellent impasto techniques.

Barcode	Description	MOQ	OC
094376931488	SLOW-DRI® Gel 237 ml	1	56
094376931495	SLOW-DRI® Gel 473 ml	1	17

MODELING PASTE
A very thick, matte, opaque preparation of marble dust and polymer emulsion used to build heavy textures on rigid surfaces. This product handles like clay and dries to a very hard stone-like surface. Can be mixed with acrylic colour or over-painted when dry. Makes an excellent substrate for acrylic paint, oil paint, oil pastel, oil bars, watercolour, graphite, or dry pastel. Great for sculptural applications and may be sanded, carved, or drilled when dry. For use on rigid supports.

Barcode	Description	MOQ	OC
094376924114	Modeling Paste 237 ml	1	28
094376924121	Modeling Paste 473 ml	1	17
094376924138	Modeling Paste 946 ml	1	12
094376924145	Modeling Paste 3.78 L	1	1
887452061953	Modeling Paste 1.89 L	1	1

LIGHT MODELING PASTE
A lightweight and airy preparation of marble dust and polymer emulsion specifically formulated to be used in applications where weight is a factor. Can be used to add body to paint and create pastel tints. Dries to a matte opaque white and can be mixed with acrylic colour or over-painted. Recommended for use on rigid supports to avoid cracking.

Barcode	Description	MOQ	OC
094376924442	Light Modeling Paste 237 ml	1	56
094376924459	Light Modeling Paste 473 ml	1	17
094376931716	Light Modeling Paste 946 ml	1	12
094376931723	Light Modeling Paste 3.78 L	1	1

FLEXIBLE MODELING PASTE
A matte, opaque preparation of marble dust and polymer emulsion. Dries more slowly than other modeling pastes to a hard, yet flexible surface. Use to build heavy textures and three-dimensional forms. Recommended for use on supports with occasional flexing.

Barcode	Description	MOQ	OC
094376945836	Flexible Modeling Paste 237 ml	1	56
094376945843	Flexible Modeling Paste 473 ml	1	17
094376945850	Flexible Modeling Paste 946 ml	1	12

SATIN GEL
A gel medium with a satin sheen finish. It increases colour-depth and transparency. Slows drying time and enhances appearance of brush marks.

Barcode	Description	MOQ	OC
887452047599	Satin Gel 237 ml	1	56

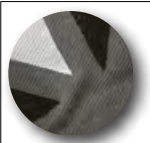

SILKSCREEN MEDIUM
A slow drying medium designed to be mixed with colour to make the colours suitable for screen printing. Maintains colour opacity and lower viscosity.

Barcode	Description	MOQ	OC
887452047544	Silkscreen Medium 237 ml	1	56

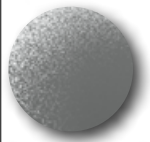

■ EFFECTS

FABRIC MEDIUM

Enhances blending, workability, and adhesion of acrylic colours for painting directly on fabric or unprimed canvas. Reduces dry paint stiffness. No heat setting required.

Barcode	Description	MOQ	OC
094376926125	Fabric Medium 118 ml	1	60

AIRBRUSH MEDIUM

A pre-filtered, ready-to-use medium that easily thins any acrylic, watercolour, or gouache to the right consistency for spray application. An excellent choice for colour washes and watercolour techniques when used with acrylic colours. Mixes well with other mediums to adjust the body and handling properties. Maintains integrity of acrylics even at high dilutions, and decreases airbrush clogging and paint buildup. Use with Liquitex Soft Body Colour for best results.

Barcode	Description	MOQ	OC
094376924336	Airbrush Medium 237 ml	1	40

IRIDESCENT MEDIUM

Adds richness to acrylic colours by creating a metallic/pearlescent effect. Dries translucent and will not oxidize. Can add shimmer or sparkle to a picture even in the smallest amount. Achieve the most dramatic effects when mixing with transparent colours. Try painting on top of any dry colour for unique effects.

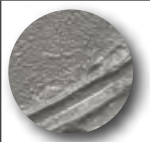

Barcode	Description	MOQ	OC
094376924480	Iridescent Medium 237 ml	1	40

CERAMIC STUCCO

A favorite medium of many artists. This thick, fine-textured gel can be applied with a palette knife to give the surface finish of an Italian fresco. It dries to a light gray matte stucco finish and is a great absorbent ground for washes and glazing. Try painting over the dry surface with airbrush medium or drawing with pastel or charcoal.

Barcode	Description	MOQ	OC
094376924367	Ceramic stucco 237 ml	1	56

NATURAL SAND

A fine-textured gel that dries to the appearance of glossy beach sand. Mix with other gels to create customized surfaces. An excellent choice to add a bit of "tooth" to an under-painting. Try combing the natural sand with a ridged trowel for uniform peaks and valleys.

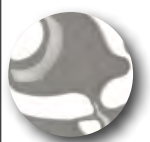

Barcode	Description	MOQ	OC
094376924381	Natural Sand 237 ml	1	56

GLASS BEADS

A medium body gel that contains clear round plastic beads and dries to a semi-gloss surface. Perfect for creating a "bubbly" but smooth texture that can be dramatic when mixed with colour. When poured it creates a flexible shimmering film for a wide variety of applications. Works well as a surface to paint over with colour. Can be used under oil or acrylic.

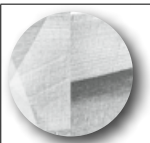

Barcode	Description	MOQ	OC
094376924466	Texture Glass Beads 237 ml	1	56

STRING GEL

A self leveling gel with honey-like consistency. Gently pouring yields a long, constant-flowing string of gel. Mix with acrylic colour for interesting application effects, to enhance depth of colour, and to increase transparency and flow. Mixed with acrylic colour and brushed, colour "follows" the brush creating long streaking effects.

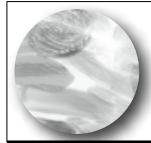

Barcode	Description	MOQ	OC
887452059011	String Gel 237 ml	1	56
887452059080	String Gel 473 ml	1	17

METALLIC MEDIUM

Mediums that add a metallic gold and silver effect when mixed with colour. They give a metallic gold or silver sheen when mixed with paint. They can be used over colour and add surface highlights when used on their own.

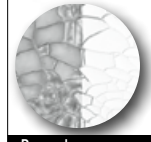

Barcode	Description	MOQ	OC
887452048473	Gold Metallic Medium 237 ml	1	40
887452048480	Silver Metallic Medium 237 ml	1	40

GLASS MEDIUM

Mixed with colour to adhere to smooth non-porous materials such as glass, ceramic, and porcelain. The colour air dries to a durable, high-gloss finish. When cured, it creates a glossy, scratch resistant surface.

Barcode	Description	MOQ	OC
887452059059	Glass Medium 237 ml	1	40

CRACKLE PASTE

Creates a structurally stable effect on rigid surfaces. Can be used alone or mixed with colour to produce a crackling effect when dry.

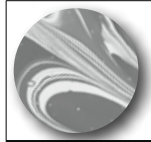

Barcode	Description	MOQ	OC
887452048466	Crackle Paste 237 ml	1	56

MASKING FLUID

Rubber latex masking areas of work needing protection during thin coatings of acrylic washes and peels off easily.

Barcode	Description	MOQ	OC
887452047551	Masking Fluid 118 ml	1	60

POURING MEDIUM

Designed to not craze in poured applications, which creates even poured puddles and acrylic sheets. Mix with Soft Body Acrylic Colour to promote drying with a smooth even coloured film.

Barcode	Description	MOQ	OC
887452058984	Pouring Medium 237 ml	1	40

N

MEDIUMS AND ADDITIVES

ADDITIVES

LIQUITHICK™ THICKENING GEL - GEL ADDITIVE
 Excellent for sculptural effects when a matt finish is desired. Gives the handling characteristics of oil or encaustic paint when added to water-based acrylic paints and mediums. Works great with opaque colours as it does not increase transparency or change the position of colours. Should not add more than 25% as there is no binder and it can weaken the stability of the paint film when too much is added.

Barcode	Description	MOQ	OC
094376945904	"Liquithick" Additive 237 ml	1	48

FLOW-AID FLUID ADDITIVE
 Breaks water tension to improve flow, absorbency and blending of any water based paint, ink or dye and minimizes brush strokes. Use with Liquitex Soft Body colour to create very fluid washes without hard edges. Great for staining effects on raw canvas. Should not add more than 25% as there is no binder and it can weaken the stability of the paint film when too much is added.

Barcode	Description	MOQ	OC
094376924176	Flow-Aid Additive 118 ml	1	60

SLOW-DRI® FLUID RETARDER - FLUID ADDITIVE
 A fluid that slows the drying time of acrylic paints and mediums by up to 40%. An absolutely essential additive if working in drier climates. Mix into the paint when on the palette to slow the skinning-over of paint and increase blending time. Should not add more than 25% as there is no binder and it can weaken the stability of the paint film when too much is added.

Barcode	Description	MOQ	OC
094376926088	SLOW-DRI® Fluid Additive 118 ml	1	60

SLOW-DRI® GEL RETARDER - GEL ADDITIVE
 An excellent choice when working in low humidity, or whenever in-creased workability and blending time of acrylic paints and mediums is desired. Will retain brush strokes and add body to lower viscosity colours. Should not add more than 25% as there is no binder and it can weaken the stability of the paint film when too much is added.

Barcode	Description	MOQ	OC
094376945898	SLOW-DRI® Gel Additive 237 ml	1	56

Acrylic Mediums

SURFACE PREPARATION

• GESSOES

- Used to seal & prime
- Can be used on surfaces such as canvas, wood, paper & metal
- Blocks & non-bleeding
- Suitable for acrylic & oil painting

<p>GESSO</p> <p>A basic titanium white acrylic ground to prepare your surface and add a high level of finish.</p>	<p>CLEAR GESSO</p> <p>A clear ground to prepare your surface and add a high level of finish.</p>	<p>BLACK GESSO</p> <p>Approved black acrylic ground to prepare your surface and add instant color.</p>
<p>SUPER HEAVY GESSO</p> <p>A heavy, structural, titanium white acrylic ground to add 3D texture and maximum tooth to your surface.</p>	<p>GREY GESSO</p> <p>A pre-mixed neutral grey acrylic ground to prepare your surface and add instant color.</p>	

FLUID MEDIUMS

• FLUID MEDIUMS

- Encourage the flow of acrylic paints & thicker gels
- Can be used on paper, canvas, wood, metal
- Dry transparent or translucent
- Make an excellent acrylic adhesive

<p>BLAZING MEDIUM</p> <p>Increase transparency, lower viscosity and enhance flow to give you professional-looking glazes.</p>	<p>Give your paint a matte finish, while thinning and extending its volume. Use as a collaging adhesive and fixative.</p>	<p>Give your paint a gloss finish while thinning and extending its volume. Use as a collaging adhesive and fixative.</p>
<p>ULTRA MATTE MEDIUM</p> <p>Shoos paint volume without changing its color, gives an ultra matte finish and maintains opacity.</p>		

GELS & PASTES

• GELS & PASTES

- Hold shape on acrylic paints
- Hold shape on fabric marks
- Extend the volume of acrylic paints
- Dry transparent or translucent
- Improve adhesion & durability

<p>MODELING PASTE</p> <p>A thick acrylic paste to create texture on rigid supports and make 3D forms.</p>	<p>Mix with paint to give it a gloss finish, while making it thicker and better for modeling - or use as a collaging adhesive.</p>	<p>Mix with paint to give it a matte finish, while making it thicker and better for modeling - or use as a collaging adhesive.</p>
<p>FLEXIBLE MODELING PASTE</p> <p>Acrylic and made paste to build texture on semi-flexible supports and create 3D forms.</p>	<p>Mix with paint to make it much thicker, better for modeling and glazing - or use as a collaging adhesive.</p>	<p>Reduce shine, extend volume and dramatically thicken - with extending open time - or use as a strong collaging adhesive.</p>
<p>LIGHT MODELING PASTE</p> <p>Lightly textured acrylic and made paste to build heavy texture and 3D forms in sculpture, where weight is a factor.</p>	<p>Increase gloss, extend volume and dramatically thicken - with extending open time - or use as a collaging adhesive.</p>	<p>Shoos paint volume without changing its color, gives an ultra matte finish and maintains opacity.</p>

EFFECTS

• EFFECTS

- Formulated to achieve various techniques, applications & special effects
- Equipment with texture, fluidity, light & depth

<p>IRIDESCENT MEDIUM</p> <p>Give your paint an iridescent finish, as use as it can be used to add surface highlights.</p>	<p>Adjust color and mediums to a water-like state ready for airbrush application.</p>	<p>Make color more adhesive. Blend and workable on all kinds of fabrics.</p>
<p>GLOSS POURING MEDIUM</p> <p>Prepare your color for smooth, wettable, clean-line pours and flowing textures and increasing fluidity.</p>	<p>Prepare your color for smooth, matte, clean-line pours and flowing textures and increasing fluidity, all without a high gloss sheen or glare.</p>	<p>Prepare your color for smooth, high gloss iridescent pours with flowing textures and increasing fluidity, all with an iridescent shimmer.</p>
<p>STRING GEL</p> <p>Creates long, honey-like strings of glossy, wettable color which you can use for textured effects.</p>	<p>Build flexible, high gloss, bubbly effects with this clear acrylic texture gel.</p>	<p>Build flexible, medium-gloss sandy texture with this clear acrylic effects gel.</p>
<p>CERAMIC STUCCO</p> <p>Build flexible, cement-like, frangibile texture with this clear acrylic effects gel.</p>		

VARNISHES

• VARNISHES

- For interior use only
- Excellent bonding properties
- Non-yellowing
- Transparent when wet - dries clear

<p>HIGH GLOSS VARNISH</p> <p>Seal your acrylic work with a transparent, high gloss varnish which is breathable, permanent and protects against UV damage.</p>	<p>Seal your acrylic work with a transparent, gloss varnish which is breathable, permanent and protects against UV damage.</p>	<p>Seal your acrylic work with a transparent, matte varnish which is breathable, permanent and protects against UV damage.</p>
<p>SATIN VARNISH</p> <p>Seal your acrylic work with a transparent, satin varnish which is breathable, permanent and protects against UV damage.</p>

 Acrylic Mediums

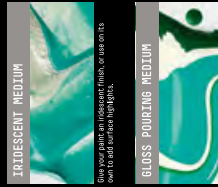

- **GESSOES**
 - Easy to apply to a wide range of surfaces such as canvas, wood, paper & metal.
 - Available in white, black, grey & translucent.
 - Suitable for acrylic & oil painting.

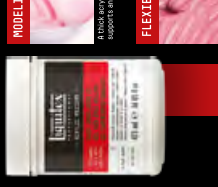

WHITE GESSO
 A white primer that prepares your surface and adds a high level of tooth.

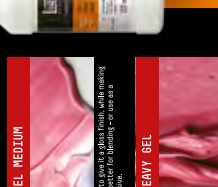

CLEAR GESSO
 Clear gesso is used to prepare your surface and add a high level of tooth.

SUPER HEAVY GESSO
 A premium black acrylic gesso to prepare your surface and add maximum tooth to your surface.

BLACK GESSO
 A premium black acrylic gesso to prepare your surface and add maximum tooth to your surface.

GREY GESSO
 A premium neutral grey acrylic gesso to prepare your surface and add maximum tooth.

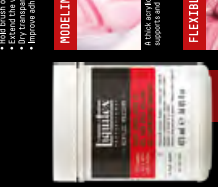

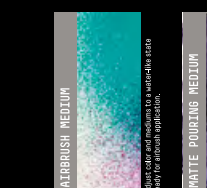

- **FLUID MEDIUMS**
 - Easy to apply to a wide range of surfaces such as canvas, wood, paper & metal.
 - Available in white, black, grey & translucent.
 - Suitable for acrylic & oil painting.

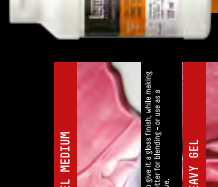

GLAZING MEDIUM
 A clear acrylic medium that allows you to create professional looking glazes.

GLOSS MEDIUM
 A clear acrylic medium that allows you to create professional looking glazes.

MATTE MEDIUM
 A clear acrylic medium that allows you to create professional looking glazes.

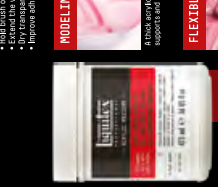

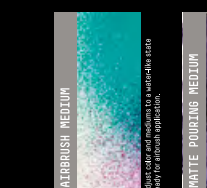

ULTRA MATTE MEDIUM
 A clear acrylic medium that allows you to create professional looking glazes.

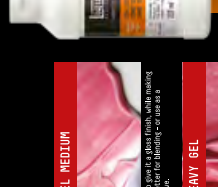

- **EFFECTS**
 - Formulated to be used with acrylic paints.
 - Available in white, black, grey & translucent.
 - Suitable for acrylic & oil painting.

IRIDESCENT MEDIUM
 A clear acrylic medium that allows you to create professional looking glazes.

GLOSS POURING MEDIUM
 A clear acrylic medium that allows you to create professional looking glazes.

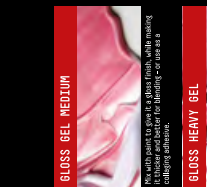

MATTE POURING MEDIUM
 A clear acrylic medium that allows you to create professional looking glazes.

- **GELS & PASTES**
 - Formulated to be used with acrylic paints.
 - Available in white, black, grey & translucent.
 - Suitable for acrylic & oil painting.

MODELING PASTE
 A thick acrylic paste that allows you to create professional looking glazes.

FLEXIBLE MODELING PASTE
 A thick acrylic paste that allows you to create professional looking glazes.

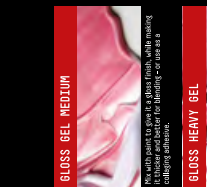

LIGHT MODELING PASTE
 A thick acrylic paste that allows you to create professional looking glazes.

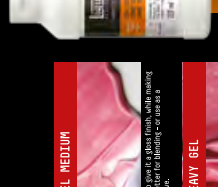

- **VARNISHES**
 - Formulated to be used with acrylic paints.
 - Available in white, black, grey & translucent.
 - Suitable for acrylic & oil painting.

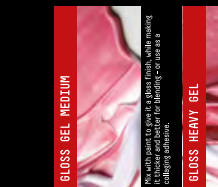

HIGH GLOSS VARNISH
 A clear acrylic varnish that allows you to create professional looking glazes.

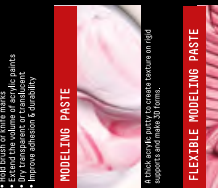

GLOSS VARNISH
 A clear acrylic varnish that allows you to create professional looking glazes.

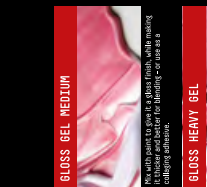

SATIN VARNISH
 A clear acrylic varnish that allows you to create professional looking glazes.

MATTE VARNISH
 A clear acrylic varnish that allows you to create professional looking glazes.

GLOSS GEL MEDIUM
 A clear acrylic gel medium that allows you to create professional looking glazes.

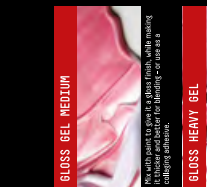

GLOSS HEAVY GEL
 A clear acrylic gel medium that allows you to create professional looking glazes.

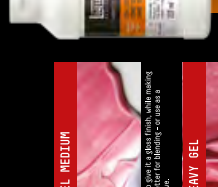

GLOSS SUPER HEAVY GEL
 A clear acrylic gel medium that allows you to create professional looking glazes.

MATTE SUPER HEAVY GEL
 A clear acrylic gel medium that allows you to create professional looking glazes.

MATTE GEL
 A clear acrylic gel medium that allows you to create professional looking glazes.

ULTRA MATTE GEL
 A clear acrylic gel medium that allows you to create professional looking glazes.

BRUSHES

Designed for use with acrylic colour and mediums, these five shapes will take you from drafting to final details, and every stage in between. With medium-soft synthetic bristles and long, smooth handles, Basics brushes are easy to clean, super durable and carry a good colour load. Brushes for different media will differ in size while they might both be labeled with the same size number. An acrylic brush nr. 7 will have a different size then a watercolour brush nr. 7. It is important therefore that actual brushes are compared rather than relying on the sizes of the brushes you currently own.

LEFRANC BOURGEOIS

PARIS - 1720

Founded in 1720 in Paris, Lefranc Bourgeois has more than 300 years of brand heritage.

A pioneer in fine art colour, materials and tools. The two founders combined their botanical, biological and visionary skills to formulate iconic pigments with natural origins.

Today, their broad range of fine art, children's and creative products are made to the exact same standards as the original.

■ FINE OIL

A new range of fine oils reworked to offer artists the right, balanced colours for perfect blends:

- 48 shades in 40 ml and 200 ml sizes
- Luminous, intense, rich colours based on quality pigments and linseed and safflower oils.
- Creamy, dense texture
- Made in France

New additions to the range of sets due in late 2024

The Lefranc Bourgeois palette made up of 120 exceptional colours has been completely revamped, readjusting each colour to optimise its performance on the canvas. Enhanced with brilliantly rich pure pigments, colour is an artist's ally in his or her eternal quest for light and intensity. More colours, more shades, and more choices to create and re-create outstanding works.

OIL ADDITIVES

**LEFRANC
BOURGEOIS**
PARIS - 1720

2 - MAKE

Make your material unique by creating your own mediums and paintings.

1. Make your own medium (solvent + oil + drying agent)
2. Make your own oil paint with pigments

OUR FAVOURITE

WHITE COURTRAI DRIER

Zirconium-based, helps certain colours to dry, 2 to 3 drops per pea-sized amount of paint.

DRYING TIME:

EXPERT
COLLECTION

Barcode	Description	MOQ	OC
3013643000518	Bottle (75 ml)	1	52
3013643000525	Bottle (250 ml)	1	28

POPPY SEED OIL

Same use as linseed oil, but non-yellowing, ideal for light colours, greatly slows down drying. Glossy.

DRYING TIME:

EXPERT
COLLECTION

Barcode	Description	MOQ	OC
3013643000211	Bottle (75 ml)	3	54
3013643000228	Bottle (250 ml)	1	28

CLARIFIED LINSEED OIL "FINE ARTS" QUALITY

To make your own painting medium or paint, slows down drying. Glossy.

DRYING TIME:

Barcode	Description	MOQ	OC
3013643000136	Bottle (75 ml)	1	54
3013643000143	Bottle (250 ml)	1	28
3013643000167	Bottle (1 L)	1	10

SAFFLOWER OIL

Improves smoothness, non-yellowing and drying, does not separate the pigment in flat colours, perfect for use with light tones. Glossy.

DRYING TIME:

EXPERT
COLLECTION

Barcode	Description	MOQ	OC
3013643002031	Bottle (75 ml)	3	54

3 - CREATE

Give effects to colour with ready-to-use mediums. Try playing with:

1. Finish (glossy to matte)
2. Depth (transparent to opaque)
3. Texture (watery to thick)
4. Setting time (quick to slow)

OUR FAVOURITE

VENETIAN MEDIUM

Translucent smooth fluid, allows you to paint "to the touch" bringing roundness and contour, 2-hour setting time, lead-free. Satin gel with a soft texture.

DRYING TIME:

DENSITY: ●

FINISH: Satin

APPLICATOR: Brushes and knives

Barcode	Description	MOQ	OC
3013643001546	Tube (60 ml)	3	96
3013643002314	Tube (200 ml)	1	50

OUR FAVOURITE

IMPASTO MEDIUM

Structuring gel that allows you to work the material. For impastos greater than 3 mm, add 10% Flemish medium. Dry texture gel.

DRYING TIME:

DENSITY: ●●

FINISH: Matte

APPLICATOR: Knives

Barcode	Description	MOQ	OC
3013643001317	Tube (60 ml)	3	96
3013643002307	Tube (200 ml)	1	50

GEL MEDIUMS

OUR FAVOURITE

FLEMISH MEDIUM

Dense paint gel, thick, translucent, lead-free. Brings thickness to create the effect of light. Pure use: sharp touch, precise without sagging. Diluted use: to create glazes with a fine brush. Shiny gel with a dense texture.

DRYING TIME:

DENSITY: ●●

FINISH: Glossy

APPLICATOR: Knives

Barcode	Description	MOQ	OC
3013643001522	Tube (60 ml)	3	96
3013643002291	Tube (200 ml)	1	50

3 - CREATE

Give effects to colour with ready-to-use mediums.

Try playing with:

1. Finish (glossy to matte)
2. Depth (transparent to opaque)
3. Texture (watery to thick)
4. Setting time (quick to slow)

COOKED STAND-OIL
Non-yellowing and drying, ideal for glazing, can be combined with a painting medium, self-leveling. Glossy.

DRYING TIME:

**EXPERT
COLLECTION**

Barcode	Description	MOQ	OC
3013643002017	Bottle (75 ml)	3	54
3013643002024	Bottle (250 ml)	1	28

OUR FAVOURITE

ALKYD MEDIUM "FINE ARTS" QUALITY
Increases the mixture's setting time by 5 hours. Also increases the smoothness of colours as well as the gloss and transparency. Satin finish.

DRYING TIME:

Barcode	Description	MOQ	OC
3013648101135	Bottle (75 ml) blister	1	6
3013643001980	Bottle (75 ml)	3	54
3013643001997	Bottle (250 ml)	1	28

PAINTING MEDIUM
Rapid setting time, brilliance and depth, turpentine-free. Glossy.

DRYING TIME:

Barcode	Description	MOQ	OC
3013648101142	Bottle (75 ml) blister	1	6
3013643000266	Bottle (75 ml)	1	54
3013643000273	Bottle (250 ml)	1	28
3013643000297	Bottle (1 L)	1	10

LIQUID MEDIUMS

HARLEM DUROZIEZ DRYING MEDIUM
Made of soft synthetic resin, it increases the gloss and transparency of glazes, enabling quick layering for wet-on-wet painting. Glossy.

DRYING TIME:

**EXPERT
COLLECTION**

Barcode	Description	MOQ	OC
3013643000396	Bottle (75 ml)	3	54

FLEMISH GLAZING MEDIUM
Made of Copal resin, to create a vitrified and amber finish in the style of Flemish painters. 2-hour setting time. Amber gloss.

DRYING TIME:

**EXPERT
COLLECTION**

Barcode	Description	MOQ	OC
3013643000358	Bottle (75 ml)	3	54
3013643000365	Bottle (250 ml)	1	28

J.G. VIBERT SLOW-SET PAINTING MEDIUM
Allows extended wet-on-wet painting, keeps a trace of the brush, yields a transparent pictorial film. Satin finish.

DRYING TIME:

Barcode	Description	MOQ	OC
3013643000303	Bottle (75 ml)	3	54
3013643000310	Bottle (250 ml)	1	28

PAINTING MEDIUM
Wax and silica-based, does not modify the transparency or the opacity of the colours, allowing you to work like the Impressionists did. Matte finish.

DRYING TIME:

Barcode	Description	MOQ	OC
3013643001683	Bottle (75 ml)	3	54

XAVIER DE LANGLAIS EGG MEDIUM
Allows you to work in the same way as you would with tempera. Matte finish.

DRYING TIME:

**EXPERT
COLLECTION**

Barcode	Description	MOQ	OC
3013643000341	Bottle (75 ml)	1	52

Our artists' picks

Requires a higher level of expertise in oil painting

AEROSOL TIP:
varnish on a flat surface and **SPRAY**
30 cm from your artwork

4 - PROTECT

Bring your work to new heights by protecting your paintings over time with a finishing varnish

1. Protect your work and adjust the finish (matte, satin or glossy)
2. Retouch and repair sinking

OUR FAVOURITE

J.G. VIBERT RETOUCHING VARNISH

Gets rid of sinking for an even gloss. Allows you touch up old paintings. Temporary and insulating varnish. Satin finish.

Barcode	Description	MOQ	OC
3013643000563	Bottle (75 ml)	3	54
3013643000570	Bottle (250 ml)	1	28

OUR FAVOURITE

SUPERIOR RETOUCHING VARNISH

Gets rid of sinking for an even gloss. Allows you touch up old paintings. Temporary and insulating varnish. Satin finish.

STUDIO GOUACHE

Lefranc Bourgeois Studio Gouache study range is composed of the 5 primary colours, in line with the latest EN71 standards, available in an 80 ml plastic tube with a clamshell cap. Thanks to the quality of gum arabic and the purity of the pigments, Studio gouache offers very saturated colours, perfect for mixing. The dough is creamy and easy to apply.

SUPERFINE VARNISH FOR GOUACHE

One should note that a gouache painting will lose its matt quality and that the value of the hues will lighten after a coat of varnish is applied. It takes on an enamelled appearance. This varnish may be applied in thin coats with a brush, working in alternate directions across and down the painting. It is also available in aerosol dispenser for spray application. When spraying, hold the canister about 25 cm away from the surface and sweep across from side to side, gradually covering the whole surface.

Flashe is a unique range, first developed in 1954. It has the appearance of old tempera paints, being matt, velvety and opaque, but encapsulated in a modern medium. Like acrylic paint Flashe can be diluted in water but becomes indelible when dry. It has many uses including preparing grounds for using oil or acrylic paints, creation of canvas paintings, theatre sets, advertising decors, thumbnail sketches or trompe l'oeil drawings.

FINE ACRYLIC COLOURS

LEFRANC BOURGEOIS
PARIS - 1720

Fine acrylic has a new texture: a better fluidity, homogeneity and consistency. Colours are made with high level of pigment. Lefranc Bourgeois created opaque versions with excellent covering power of some naturally transparent colours. The texture is buttery enough for quick and easy coverage, but thick enough for brush marks to remain.

Available in 50 magnificent Acrylic colours (including 6 new colours).

■ LINEN SUPERIOR QUALITY CANVAS

The Lefranc Bourgeois Extra-Fine stretched canvas offers a superior support designed for professional artists, guaranteeing superior results when it comes to exhibiting an artist's work, and bringing artwork to new heights. The selected linen fibre is a long fibre, harvested in Europe, giving the canvas a fine structure and great stability over time.

- 100% Linen for durability and maximum moisture resistance
- 465 g/m² - weight of coated fabric
- Sturdy wood sections made of solid oven-dried pine, warp-resistant
- Ready-to-use, gesso coating highly pigmented with titanium dioxide
- Fixed canvas for a traditional presentation
- Hand-stretched canvas for optimum tension and adjusted corners
- Wooden keys included to tighten the canvas if necessary
- Archive quality, acid-free for increased durability
- For use with acrylic and oil paints
- FSC trademark ensures responsible forest management

MULTI-TECHNIQUE PAPER

Lefranc Bourgeois markets a paper pad specially designed for use with a mixed range of media. White and 100% acid-free, the sheets don't buckle and are ideal for use with gouache paints, ink, and dry techniques.

Specification

- 12 sheets of 300 g
- Pure white matte surface with fine grain
- 1 size, gummed: A4

Multi-technique paper

- Allows even application on large surfaces, with a paint roller or synthetic brush.
- Use on various materials: paper, wood, clay, glass, plaster, metal, decorative fabrics, ceramics...

INSTRUCTIONS:

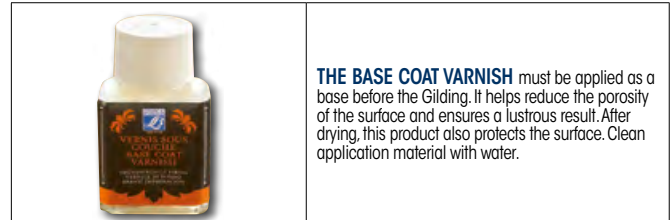

- The metallic pigments must be stored with a brush and then mixed by shaking the bottle before use.
- The colours can be overlapped, but the colour preceding a covering must be perfectly dry (1h30 to 2 hours drying time).
- Glass and plastic objects can be washed after 24 hours of complete drying. Do not use on surfaces in contact with food.
- Coverage: approximately 1 m² per 75 ml bottle.

Do not use on a surface already painted with paints that contain glycerin.

THE LIQUID GILDING is a gilding product applied with a brush. Mix the metallic pigments well with the brush, then blend the liquid until smooth before application for a lustrous result.

THE BASE COAT VARNISH must be applied as a base before the Gilding. It helps reduce the porosity of the surface and ensures a lustrous result. After drying, this product also protects the surface. Clean application material with water.

Barcode	Description	MOQ	OC
3013643504276	Base coat varnish	1	52

THE THINNING CLEANER reduces viscosity and cleans. Useful as a thinner to reduce gilding viscosity if necessary. Dilute to 20% maximum. Cleans all equipment used for gilding. Allows you to strip old, dried gilding.

Barcode	Description	MOQ	OC
3013643504283	Cleaner thinner	1	52

Total for display: 47 References

THE GILDING WAX is a gilding product applied with a brush or cloth. Wait until dry before polishing. To clean the material used to apply the Gilding products, use the specific lacquer thinner.

22 transparent colours that adhere to any smooth surface previously cleaned with solvent. Intense, bright and transparent colours with a shiny, lacquered finish.

For the best lightfastness, it is advisable to apply a fairly thick layer of colour. The colours can be mixed with one another and can be diluted with Vitrail thinner. The outlines are created using outliner colours, which are available in 8 colours. 3 additives extend the range to vary the effects and finishes.

**LEFRANC
BOURGEOIS**
enfants

Since 1720, Lefranc Bourgeois has been inspiring children from a very early age and providing parents with a guarantee of optimal quality and safety. Bourgeois has always been very involved in artistic education and produced the first non-hazardous primary colours. The Lefranc Bourgeois brand has always supported young artists from a very early age.

FIRST COLOURS

MADE IN FRANCE

Produced in our environmentally friendly factory in France, these paints can easily be washed from hands using clear water, and can be washed out of fabric at 30°C. This formula, based on colourants and preservatives approved for cosmetics, limits the risk of allergic reactions, and the presence of a bittering agent limits the risk of ingestion. This creamy and fluid paint is pleasant and easy to spread. Finger painting becomes a pleasant activity to perform to develop the motor skills and creativity of the youngest children. The 250 ml tube is ideal for use at home.

SPOTY

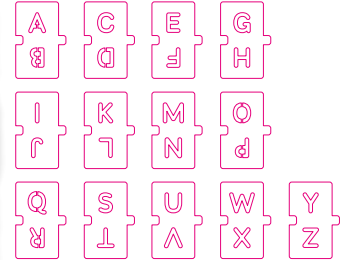

SPOTY gouache sets are suitable for all young artists and allow children to unleash their creativity with ready-to-use applicators suitable for small hands, as well as stencils of 26 letters or 26 shapes. Children will develop their dexterity through learning the letters of the alphabet or different illustrations while discovering colours. SPOTYs do not require water or a brush. A single stroke of the sponge with water on the stencils and on the tip of the spoty is enough to clean them.

The glitter:

- particularly bright,
- highly concentrated in the base,
- spreads very evenly using a brush.

A true gouache:

- based on pigment,
- % washable on fabric (from 40°C even after 24 hours drying),
- dilutes in water,
- more or less opaque according to the quantity of paint applied.

Packaging differentiates between the 2 forms:

- Different labels for Glitter gouache and Glitter Gel

REDIMIX LIQUID GOUACHE

MADE IN FRANCE

Produced in our environmentally-friendly factory in France, the Redimix range of liquid gouache is guaranteed non-toxic and complies with the EN71 standard for paints and toys. This liquid, concentrated and ready for use gouache is ideal for learning to paint at school. All colours can be mixed together and can be applied to many media such as paper, cardboard, wood, plaster, salt dough, etc. Washes off with water, and washes out of clothing with warm water. This gouache allows children to give free rein to their creativity.

■ GOUACHE IN TUBES

A whole palette of colours!

- Based on high quality pigments, the colours offer high coverage.
- Our gouache formulas are guaranteed not to contain toxic ingredients such as heavy metals (lead, cadmium, arsenic, toluene, etc.) or known allergens. Essentially produced on the basis of natural and non-toxic materials, Lefranc Bourgeois gouaches are perfectly adapted to foster the artistic education of children. Our gouaches are produced in an ISO 1400 certified factory and comply with the CE European standards.

SCHOOL PACKS

Lefranc Bourgeois listens to teachers and takes into account their requirements for high quality, safe and affordable products by creating the SCHOOL PACK range. This economical and ergonomic programme perfectly meets the needs of institutions or wholesalers. Each school pack is a cardboard box with a cover, practical for storage and recyclable at the end of its life.

Intended to help very young children discover painting, these school packs are perfectly suited to crèches and nursery schools.

"BABY BRUSHES" SCHOOL PACK

Perfectly suited for the hands of the youngest children, this brush is a vital tool for introducing children to painting and supporting them as they learn to grip. Each school pack contains 20 brushes in 5 different bright colours.

3013641883748

"BABY CRAYONS" SCHOOL PACK

Designed to introduce very young children to colouring, "Baby crayons" have an ergonomic shape which makes them easy to hold and provides a no-mess introduction to drawing. The rounded shape of baby crayons makes them a safe and fun tool, because they can simply be stacked together to store them. Washes easily out of fabrics. Each school pack is designed for a class with 7 crayons in each of 6 bright colours.

3013641884967

"SPOTY" SCHOOL PACK

Designed to introduce very young children to discovering painting, the SPOTY Gouache applicator has a wide foam tip for large surfaces. It is the ideal tool for practising painting without mess, because SPOTY is ready for use and does not need water. The school pack comprises 12 bright shades to introduce children to colours. The SPOTY applicator can be rinsed in water and is stored upside down.

School packs				
Barcode	Code	Description	MOQ	OC

INDIAN INK

MADE IN FRANCE

Apply neat or dilute with water using a brush, pen or airbrush. Can be applied to paper, rhodoid, tracing paper, metal, etc. Based on pigments, the ink covers well and is indelible and glossy after drying. For greater safety in class, the bottle is made of plastic with a stopper

3013643014423

Barcode	Code	Description	MOQ	OC
3013643014423	301442	Indian ink in 14 mL bottle	1	20

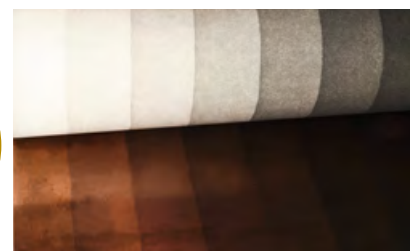

The range of Charbonnel Intaglio Inks meets the needs of the most demanding printers and artists. Each pigment is selected according to strict criteria, from lightfastness and acidity rate, to the quality of its oil combination and the fineness of ground pigments. Guaranteeing quality prints made to last.

Features:

- Easily washed from hands and equipment with soapy water
- Outstanding lightfastness
- High pigment concentration and good miscibility
- Sticky and easy to wipe off
- For use on paper with less moisture than is required for conventional inks
- Identical drying to conventional inks
- Indelible once dry
- Ideal for experimenting at home with the linocut tools

Vegan & solvent-free

The Blacks

TINT

TEXTURE

BLACK RSR	Strong and warm black	Viscous, powerful and supple black
BLACK 55981	Mid. Black	Very viscous, but easier to wipe than 55985: for deeply etched lines or Burin engraving
BLACK F66	Mid. Black	Low viscosity, easy to wipe
BLACK DE CARBONE	Warmer Black	Low viscosity, easy to wipe
BLACK 55985	Cold, intense black. Reinforces the other blacks	Most viscous black, for deep etching, drypoint, burin and mezzotint
BLACK LUXE C (CARBONE)	Slightly bluish black. Reinforces the other blacks	Viscous, tacky and difficult to wipe
SOFT BLACK (ESSUYAGE)	Weak black. May be used for lowering the tones of a plate which is heavily etched (engraved)	Very supple, low viscosity, easy to wipe

	<p>THICK TRANSPARENT MEDIUM</p> <p>(equivalent to Transparent White Lake in the standard range) can be mixed with any colour, and increases transparency while retaining the same texture. As with the colours, this medium softens on kneading, and does not change the colour with regard to its tack and its adhesion in the grooves.</p>
	<p>AQUA WASH OIL</p> <p>(equivalent to the light, oily, strong oils in the standard range) is used as a colourless thinner to render more fluid those colours that are considered to be too thick at the time of inking or wiping (the equivalent of a few drops is enough) while maintaining their viscosity. It is also used in larger amounts (combined or not combined with water) in the monotype or photopolymer techniques, everywhere that greater fluidity is required. This oil is the binding oil of the AQUA WASH product range.</p>

COLOURED ETCHING INKS

MADE IN FRANCE

CHARBONNEL

This range of Charbonnel Etching Inks has been designed by our laboratory to provide the high quality results that our artists desire. A full range of hues is available, including gold and silver. All 58 hues consist of ground pigment fully miscible with polymerized Linseed Oil to provide an ink of superb consistent quality. Particular care has been made to ensure that the handling of the ink on plates meets the expectation of our customers. Designed for use with steel or zinc plates Charbonnel has a drying time of approximate two weeks.

GILDING

This oil based glue (or size) is heated in a closed container according to an exclusive formulation and is subjected to a multitude of filtering and decanting operations. This high-quality product ensures long-lasting gilding work. Charbonnel Gilder Clay is a paste grounded in the traditional manner between granite rollers to ensure top quality and performance. Gilder Clay needs to be mixed with twice its volume of a lukewarm solution of Skin Size to be applied to the object which is to be gilded. Skin Size: an essential ingredient of the gilder clay mixture, Charbonnel Skin Size is in the shape of solid granules which are packed in a 1 kg bag.

A new coherent navigation system developed in collaboration with artists and consumers.

1- PREPARE

Before applying these grounds, it is imperative that all grease be removed from the plate. To do this, thin some Marly white with a small quantity of water and rub the plate with a soft cloth or a piece of cotton. Rinse under running water. Pour a soured solution of vinegar and salt on the plate. Rinse once again. Dry rapidly. Avoid putting fingers on the plate whilst carrying out these operations.

CHARBONNEL HARD BLACK BALL GROUND (SOLID)
 Wrapped in a piece of taffeta which serves as a filter, the ball is rubbed on the pre-heated metal plate. Dab on the ground to obtain an even surface before stroking. The matt black finish obtained makes etching work very clear.

Barcode	Description	MOQ	OC
3013643016359	Additive Hard Ball Ground (Solid)	1	216

LAMOUR HARD BLACK BALL GROUND (SOLID)
 This ground is used as above. It is however, not quite as hard as Charbonnel ball ground.

Barcode	Description	MOQ	OC
3013643016373	Lamour Hard Back Ball Ground (Solid)	1	198

CHARBONNEL SOFT BLACK BALL GROUND (SOLID)
 A painting dabber is recommended for application. It is applied hot.

Barcode	Description	MOQ	OC
3013643016366	Additive Soft Black Ground (Solid)	1	216

2 - PROTECTION

After leaving the plate in acid for the required time, remove the plate from the acid bath solution and remove the ground using the appropriate thinner. The amount of time you leave the plate in the acid depends on the acid's strength (measured using an acetometer), the room temperature and the depth you wish to give the stroke. The etching is then ready and only the finishing touches need to be applied. A retouching ground can be applied to the plate which may then be retouched as required following the lines of the previous etching.

BLACK COVERING GROUND LAMOUR
 It is particularly recommended for aquatint techniques.

Barcode	Description	MOQ	OC
3013643016458	250 ml	1	45
3013643016465	1 L	1	16

**NEW DESIGN
 SAME PERFORMANCE**

LIQUID GROUND ENGRAVER ULTRAFLEX
 Apply it cold to the plate with a very supple brush, or plate coating device or pour it directly onto the inclined plate. Due to its transparency, it is suitable for a second application and reworking.

Barcode	Description	MOQ	OC
3013643016380	75 ml	1	52
3013643016397	500 ml	1	30
3013643016403	1 L	1	16

BLACK SATIN GROUND ENGRAVER LAMOUR
 It is applied in the same way as Ultraflex liquid ground. It allows a long etching time with no risks of scaling. It dries faster than Ultraflex due to the presence of quick drying petroleum. It is also harder than the Ultraflex ground and, therefore, result in finer lines.

Barcode	Description	MOQ	OC
3013643016410	75 ml	1	52
3013643016427	250 ml	1	45
3013643016434	1 L	1	16

LAMOUR SOFT BLACK GROUND
 It dries slowly and remains supple for a long time. It is applied hot. It can be used for soft ground.

■ PENCILS - CARRÉS CRAYONS - PASTELS

The history of "Conté à Paris" products cannot be separated from the personality of the company's founder, Nicolas Jacques Conté.

Born in 1755, he claimed the title of painter, chemist, physicist, hot air balloonist and inventor during the fifty years he lived.

Nicolas Jacques Conté's historical achievement is undeniable. In 1794, he developed the modern graphite lead from a mixture of clay and graphite, thus making it finally possible to create different grades of hardness for pencils. The pencil factory he set up in 1795 enabled France to at least produce its own calligraphy and drawing material. A few years later, he developed "pencils without sleeves" (bare leads) replacing those made from "Italian stone". He worked on making the colours "fixed and unchangeable" to meet the requirements of the painters of the day. Artists' pencils and pastels were thus born. Over the decades, the quality of its products and the extent of its ranges have enabled Conté à Paris to establish itself as a true reference for artists world-wide. Used by top masters, amateur artists and art students alike, Conté à Paris offers the widest variety of techniques and effects possible for drawing, sketching and pastel work.

Section: 6 x 6 mm

◆ Short range

■ COLOUR CARRÉ CRAYONS

The Colour Carré crayons allow to work precisely thanks to the edges of the sticks. Designers will exploit the possibilities of flat work by using the square tip.

■ SOFT PASTELS

Diameter: 10 mm
Length: 65 mm

The Soft Pastels feature a creamy and uniform texture. The 50 bright colour spectrum uses only artist grade pigments and carefully selected chalks and clays. The Soft Pastel comes in a bigger size, 10 mm diameter × 65 mm length.

■ CHARCOALS

Natural charcoals are raw in shape and particularly rich in matter. They bring a warm tone.

The compressed charcoals have a regular shape that allows for better hold in the hand. They are less volatile, give a more intense rendering, and last longer than natural charcoals. However, they are less easy to work because they are fatter and more difficult to fade.

Charcoals

Discover Viviva !

Our mission is to make art fun and easy for all. Viviva makes innovative products that bring sheer childlike delight to everyone.

COLOURSHEETS

Viviva coloursheets are high quality, made from premium dyes and deliver incredibly vibrant colours that allow the user to explore their creativity anywhere in the world. They help lower the barriers to express your creativity even with little to no experience. The product is easy to use and portable, so ideal for travel. It offers enough paint to last several sessions with the upside of not having to carry lots of materials. The pocket size sheets fit easily into your handbag or jeans pocket. All you need is a little bit of water and some inspiration and then let the fun begin. All materials are recyclable with only a limited amount of plastic, it also has peggable packaging. Sketchbooks are individually blistered. The current range of products offers 4 sets of Coloursheets.

PRODUCT SAFETY

Dangerous substances and mixtures

All Colart's products undergo regular safety evaluations to ensure they comply with the appropriate safety regulations around the world and are safe to use. These include but are not limited to CLP regulation (Regulation EC No. 1272/2008), the EU Toy safety Directive (2009-48/EC) and EU Cosmetics regulation (Regulation EC No. 1223/2009) as applicable in the EU; California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986), the Labeling of Hazardous Art Materials Act (LHAMA) and the Federal Hazardous Substances Act (FHSA) in the US, among other regulations.

Provided our products are used as directed and the safety measures listed on the label are followed, Colart's products are safe to use. Our product labels and safety data sheets offer the most up to date information. Please contact us if you have any questions regarding the product safety.

ALWAYS READ THE LABEL

The vast majority of our products are free for serious health warnings. Those that require special care will be labelled with warnings and safe use precautions. It is important to read the product label before use.

The legislative environment for art materials is complex; different regions evaluate chemical hazards using different methodologies. Since Colart products are sold internationally, labels may contain labelling specific to different jurisdictions. However, artists are advised to follow labelling identified for their region.

SYMBOLS EXPLAINED

Product labels can often be difficult to understand with many symbols and different types of safety information, to help you find the relevant information we have explained what each symbol means.

FLAMMABLE

Extremely flammable, highly flammable liquids, solids and aerosols - relevant for the EU.

THE GREEN DOT

Indicates that a company has made a financial contribution towards the recovery of its packaging.

HEALTH HAZARD

Acute toxicity, eye and skin irritation, skin sensitization - relevant for the EU.

THE WHEELIE BIN LOGO

Indicates that a product should never be discarded in domestic waste. It can be found on products that could present a significant risk to human health or the environment.

SERIOUS HEALTH HAZARD

Carcinogenic, mutagenic, reproductive toxicity, aspiration toxicity and respiratory sensitisation, target organ toxicity - relevant for the EU.

A TACTILE WARNING

Is a transparent raised triangle shaped warning understood by those with impaired vision. It can be found on products that could present a significant risk to human health.

HAZARDOUS TO THE ENVIRONMENT

Acute and chronic environmental hazards - relevant for the EU.

CHILD RESISTANT PACKAGING

Products that could present a serious risk if ingested are sealed with a child resistant.

THE CE LOGO

On Colart products identifies a product that complies with the safety requirements of EU Toy safety Directive (2009-48/EC).

REVERSE EPSILON

Indicates that an aerosol can meets European manufacturing requirements.

This symbol is shown on the label of children's products that are not suitable for children under 3 years of age.

THE CL SEAL

Means the product requires cautionary labelling according to US federal regulations on adult artists materials. Products with this seal are not hazardous if used correctly. It is important to read the product label in full before opening a product - relevant for the US.

THE AP SEAL

Means the product has been approved and does not require cautionary labelling according to US federal regulations on adult artists materials - relevant for the US.

The UKCA

The UKCA (UK Conformity Assessed) marking is a new UK product marking that is used for goods being placed on the market in Great Britain (England, Wales and Scotland). It covers most goods which previously required the CE marking; Toys and Aerosols.

THE FSC™ LOGO

Is the mark of responsible forestry. The logo indicates if any components of the product are certified by the Forestry Stewardship Council, to coming from well managed forests and/or recycled materials.

BIOCIDES AND TITANIUM DIOXIDE

Due to changes in EU chemical regulations, companies are now required to label products containing biocides and titanium dioxide. These are existing and essential components of artist paints and additives. Biocides prevent the growth of microorganisms in water-based products, while titanium dioxide is a multifunctional white pigment used for its colour and delivering high coverage and opacity to paint. To date there are no alternatives available that maintain high quality and performance of fine art products.

Biocide warnings on water based products:

Contains MBIT. May produce an allergic reaction.

Contains MBIT. May produce an allergic reaction. Contains a biocidal product: IPBC. Risk of skin sensitization.

Biocides are necessary to protect water-based paint from microbial growth. They cannot be removed as they guarantee that products will maintain quality over time. These substances have come under regulatory pressure because they may cause an allergic reaction in individuals that have already been sensitised (are already allergic) to them. These warnings inform consumers with known allergies to these substances of their presence. Biocides are added to our products at the lowest possible levels that ensure that the product is preserved and that it will not cause allergic reactions in unsensitised individuals.

Titanium Dioxide warnings:

Warning! Hazardous respirable dust may be formed when used. Do not breathe dust.

Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.

Both warnings advise users to avoid inhalation of dust or liquid droplets to avoid health effects of dust or other particles in the lungs. Respirable dust or liquid particles will not be generated during normal use. However special precautions should be taken when sanding dry paint or spray applying liquid paint so as to not inhale dust or spray/mist that result from those applications.

SAFETY DATA SHEETS

A safety data sheet is a formal document designed to communicate chemical hazards and safety advice. The primary section of the safety data sheet covers product classifications for physical, human health hazards and environmental effects. The proceeding sections cover topics related to safe use and handling, e.g. first aid measures to storage and firefighting advice. The safety data sheets also contain the relevant product labelling. Depending on the jurisdiction this is located in different sections. Please consult section 2 of the safety data sheet for product classification. Section 14 of the safety data sheet provides the transport classification, if any.

For hazardous chemicals this type of document is required by law. Colart wants you to be fully informed, so we provide safety data sheets for all chemical products. The most up to date can be found on our websites or obtained on request.

Products such as brushes, pallets and canvas do not fall under the remit of safety data sheets as the format wouldn't lend to giving you meaningful information. Please contact us for specific safety advice for these types of products.

STORAGE AND DISPOSAL OF ART MATERIALS

SColart are members of The European Artists Colours Association, EuACA (a sector group of CEPE). EuACA provide best practice guidance on their website for the storage and safe disposal of art materials.

All art materials should be stored away from direct heat and light, with the lid securely replaced after use. Certain types of paints can be damaged if stored in cold temperatures. Never store your paints below 10 °C.

Surplus paint, mediums or varnish should never be rinsed down the sink. If you are unsure of how to safely dispose of your product please collect remnants and dispose of at a waste disposal facility.

Please visit the EuACA website for more details or speak with your local waste and recycling facilities about the best method of disposal. <http://www.artists-colours.org/>
