

Cotman Watercolour Metallics 2022 – Merchandising Pack

WN Cotman Metallics HMTTC

WN CWC Metallics HMTc

EN - A hand painted colour chart is a vital reference guide for all artists. The colours within this chart are hand painted to clearly show their individual pigment characteristics such as hue, transparency and colour strength. Each of the colours are individually painted as a graded wash to show either mass tone or undertone in a fine wash or glaze. Hand painted colour charts are available for all Winsor & Newton colour ranges.

FR - Un nuancier d'applications véritable est un guide de référence essentiel pour tous les artistes. Les couleurs de ce nuancier sont peintes à la main pour montrer clairement les caractéristiques de chaque pigment, telles que la teinte, la transparence et la résistance du color. Chaque des couleurs est peinte individuellement sous la forme d'un lavis gradué pour montrer le ton de masse ou le sous-ton dans un lavis fin ou un glacis. Les nuanciers d'applications véritables sont disponibles pour toutes les gammes de couleurs Winsor & Newton.

ES - Una carta de colores pintada a mano es una guía de referencia fundamental para todos los artistas. Los colores de esta carta están pintados a mano para mostrar claramente las características individuales de sus pigmentos, tales como el tono, la transparencia y la resistencia del color. Cada uno de los colores ha sido pintado individualmente como una aguada graduada para mostrar el tono completo y el tono degradado en una aguada o veladura fina. Las cartas de colores pintadas a mano están disponibles para todas las gamas de pinturas de Winsor & Newton.

IT - Una cartella colori dipinta a mano è un riferimento essenziale per tutti gli artisti. I colori contenuti in questa cartella sono stati dipinti a mano, allo scopo di illustrare chiaramente le caratteristiche dei singoli pigmenti quali: tonalità, trasparenza e potenza del colore. Ciascun colore è dipinto separatamente in modo graduato, per illustrare la tonalità di massa o il sottotono in una mano diluita o velatura. Le cartelle colori dipinte a mano sono disponibili per tutte le gamme di colori Winsor & Newton.

DE - Eine handgemalte Farbkarte ist ein wichtiger Leitfaden für alle Künstler. Die Farben auf dieser Karte wurden von Hand aufgemalt, damit ihre individuellen Pigmenteneigenschaften, wie z.B. Farben, Transparenz und Festigkeit deutlich zu erkennen sind. Jede Farbe wurde einzeln entweder als abgestufte Waschung, um ihren Masse- oder Unterton in einer dünnen Waschung oder Lasur zu zeigen. Handgemalte Farbkarten sind für alle Farbserien von Winsor & Newton erhältlich.

NL - Een handgeschilderde kleurenkaart is voor elke kunstenaar een onmisbaar referentieobject. De kleuren op deze kaart zijn met de hand geschilderd om hun individuele pigmenteigenschappen zoals kleurtoon, transparantie en kleurechtheid duidelijk te laten zien. Elke kleur is afzonderlijk opgebracht, of als verpoeide toon, om hetzij de massatoon, hetzij de ondertoon (souwerm) in een dunne wasverf of een gladde laag te laten zien. Handgeschilderde kleurenkaarten zijn verkrijgbaar voor alle assortimenten Winsor & Newton verf.

SE - En handmålad färgkarta är en viktig referens för alla konstnärer. Kulörerna är handmålade så att de tydligt visar sina individuella pigmentegenskaper, såsom nyans, transparens och hållkraft. Alla kulörer är individuellt målade antingen som en graderad lavering eller som separata grövor för att visa massan eller undertonen i en tunn lavering eller lasur. Det finns handmålad färgkarta för alla Winsor & Newton-färgserier.
