

SAFETY NOTES

Printed 22/05/13

PRODUCT IDENTIFICATION:

Thinner for water based acrylic colours

COMPOSITION AND TECHNICAL FEATURES

COMPOSITION:

No dangerous components to be marked.

Solution in water of :

2-metoxy-1-propanol 0,0049%

CAS 1589-47-5

1-methoxy-2 propanol 0,9951%

CAS 107-98-2

2-amminoethanol <1‰

CAS 141-43-5

TECHNICAL FEATURES

Non-inflammable solution

HAZARDS

EFFECTS ON HEALTH

Being a product in a complete aqueous phase, when the instruction are correctly followed under normal application conditions, it does not to produce any dangerous effect on health.

ENVIRONMENT EFFECTS

Environment safe product.

FIRST AID MEASURES

Inalation:

Move the person in the open air and call a phisician.

Skin contact:

Remove the stained clothes and wash the skin with water and soap.

Eyes contact:

Wash immediately with plenty water.

EXPOSURE CONTROLS AND PERSONAL PROTECTION

Breathing organs protection: No special measures are required.

Hand protection: No special measures are required.

Eyes protection: Avoid accidental sprays.

Skin protection: No special measures are required.

PHYSICAL AND CHEMICAL FEATURES

Aspect: Liquid.

Smell: Weak.

Solubility in water: Dispersable.

STABILITY AND REACTIVITY

Conditions to be avoided: It does not contain any substance wich could be chemically reactive.

Substance to avoid: None.

Hazardous decomposition substances: None.

All information reported above have been taken by similar notes supplied by the producers of the raw materials employed.
