# SAFETY DATA SHEET

Section 1: Identification		
Product identifier used on the	e label;	
Product name:	Tamiya Color Spray for Polycarbonate	
PS-44 Translucent Green (#86044)		-
Product code:	0401203044	
Other means of identification	:	
No information	,	
Recommended use of the che	mical and restrictions	on use;
<b>Recommended use:</b>	Polyvinyl chloride / polyvinyl acetate coatings (PS)	
Restrictions on use:	No information	
Name, address, and telephone	e number of the chemi	cal manufacturer, importer, or other responsible
party;		
Name:	Tamiya, Inc.	
Department in Charge:	Internatio	nal Division
Address:	3-7 Ondawara, Suruga-ku, Shizuoka JAPAN 422-8610	
<b>Telephone number:</b>	+81-(0)54-286-5105 (Headquarters)	
Fax number:	+81-(0)54-285-3230 (Headquarters)	
e-mail address: intl_div@tamiya-inc.co.jp		tamiya-inc.co.jp
Emongonov nhono numbor		
Emergency phone number	+81-(0)54	4-286-5105 (Headquarters)

Section 2: Hazard(s) identific	ation	
Classification of the chemical	in accordance with pa	aragraph (d) of §1910.1200;
Physical Hazards		
Flammable aersols		Category 1
Health Hazards		
Acute toxicity (dermal)		Category 5
Acute toxicity (inhalation	n - vapors):	Category 4
Acute toxicity (inhalation	n - mist)	Category 5
Skin corrosion/irritation		Category 2
Serious eye damage/eye	irritation:	Category 2A
Skin sensitization:		Category 1
Carcinogenicity:		Category 2
		Category 2
Reproductive toxicity:		Category 1 (liver, blood, respiratory system, kidneys, centr
Specific target organ toxi	icity single exposure:	nerves and central nervous system)
0	· •, · · •	Category 1 (kidneys and systemic toxicity)
Specific target organ toxicity repeated or		Category 2 (blood)
prolonged exposure:		Category 2 (01000)

#### **Environmental Hazards**

Hazardous to the aquatic environment (acute)

Category 3

# **Other Hazards**

Contact of liquefied gas with skin may cause frostbite.

Signal word, hazard statement(s), symbol(s) and precautionary statement(s) in accordance with paragraph (f) of §1910.1200;

Symbol(s)

Signal word Hazard Statement(s)

# Danger

0	0
Hazard Statement(s)	H222: Extremely flammable aerosol
	H229: Pressurized container: may burst if heated
	H313: May be harmful in contact with skin
	H315: Causes skin irritation
	H317: May cause an allergic skin reaction
	H319: Causes serious eye irritation
	H332: Harmful if inhaled
	H351: Suspected of causing cancer
	H361: Suspected of damaging fertility or the unborn child
	H370: Causes damage to organs (liver, blood, respiratory
	system, kidneys, central nerves and central nervous system)
	H372: Causes damage to organs (kidneys and systemic
	toxicity) through prolonged or repeated exposure
	H373: May cause damage to organs (blood) through
	prolonged or repeated exposure
	H402: Harmful to aquatic life
Precautionary Statement(s)	
[Prevention]	P201: Obtain special instructions before use.
	P202: Do not handle until all safety precautions have been
	read and understood.
	P210: Keep away from heat/sparks/open flames/hot surfaces
	No smoking.
	P211: Do not spray on an open flame or other ignition source.
	P233: Keep container tightly closed.
	P240: Ground/bond container and receiving equipment.
	P241: Use explosion-proof electrical/ventilating/
	lighting/equipment.
	P242: Use only non-sparking tools.

P243: Take precautionary measures against static discharge.

\_

	Date of issue: 1st April, 2015
	P251: Pressurized container: Do not pierce or burn, even after
	use.
	P260: Do not breathe dust/fume/gas/mist/ vapors/spray.
	P264: Wash hands thoroughly after handling.
	P270: Do not eat, drink or smoke when using this product.
	P271: Use only outdoors or in a well-ventilated area.
	P272: Contaminated work clothing must not be allowed out of
	the workplace.
	P273: Avoid release to the environment.
	P280: Wear protective gloves/protective clothing/eye
	protection/face protection.
[Emergency response]	P302+P352: If on skin: Wash with plenty of water.
[Emergency response]	P303+P361+P353: If on skin (or hair): Take off immediately
	all contaminated clothing. Rinse skin with water/shower.
	P304+P340: If inhaled: Remove person to fresh air and keep
	comfortable for breathing.
	P305+P351+P338: If in eyes: Rinse cautiously with water for
	several minutes. Remove contact lenses, if present and easy to
	do. Continue rinsing.
	P308+P311: If exposed or concerned: Call a poison
	center/doctor.
	P308+P313: If exposed or concerned: Get medical
	advice/attention.
	P312: Call a poison center/doctor/if you feel unwell.
	P314: Get medical advice/attention if you feel unwell.
	P333+P313: If skin irritation or rash occurs: Get medical
	advice/attention.
	P337+P313: If eye irritation persists: Get medical
	advice/attention.
	P363: Wash contaminated clothing before reuse.
	P370+P378: In case of fire: Use suitable extinguishing media
	to extinguish.
[Storage]	P403+P235: Store in a well-ventilated place. Keep cool.
	P405: Store locked up.
	P410+P412: Protect from sunlight. Do not expose to
	temperatures exceeding 40°C/104 °F.
[Disposal]	P501: Dispose of contents/container in accordance with
r= -2koom1	local/regional/national/international regulations.
	Toous replonar national international regulations.

# Description of any hazards not otherwise classified;

No information

# Ingredient with unknown acute toxicity in the mixture

5 - 10 % of the mixture consists of ingredients of unknown acute toxicity.

# Section 3: Composition/information on ingredients

# **Compositions (contents of the product)**

Chemical name	CAS No.	Concentration/ concentration ranges (wt %)	Chemical Formula
Polyvinyl	—	5~10	—
chloride-polyvinyl			
acetate			
Butyl acetate	123-86-4	5~15	$C_{6}H_{12}O_{2}$
iso-Butyl acetate	110-19-0	10~20	$C_{6}H_{12}O_{2}$
Methyl isobutyl ketone	108-10-1	5~15	$C_6H_{12}O$
Ethylene glycol	111-76-2	1~5	$C_{6}H_{14}O_{2}$
mono-n-butyl ether			
iso-butyl alcohol	78-83-1	5~10	$C_4H_{10}O$
Acetone	67-64-1	<1	$C_3H_6O$
Cyclohexanone	108-94-1	<1	$C_{6}H_{10}O$
Diacetone alcohol	123-42-2	1~5	$C_{6}H_{12}O_{2}$
Vinyl acetate	108-05-4	0.5	$C_4H_6O$

Dimethyl ether (as	115-10-6	40~50	$C_2H_6O$
propellant)			

Section 4: First-aid measures			
Necessary first-aid measures by	Necessary first-aid measures by relevant routes of exposure;		
IF INHALED	If inhaled a large volume of vapor or gases, immediately		
	remove victim to fresh air and keep patient at rest and warm.		
	If not breathing or breathing is weakened, give artificial		
	respiration.		
	If you feel unwell after inhaling vapor or gases, keep at rest		
	under fresh air and get medical advice/attention.		
IF ON SKIN	Wipe off with a dry cloth then wash the contaminated area		
	with soap and water.		
	Take off immediately all contaminated clothing.		
	Wash contaminated area with plenty of soap and water.		
	If exposed to the solvent to the whole body, wash thoroughly		
	by taking a bath or shower.		
	When suffering from frostbite due to contact with the		
	liquefied gas, rinse skin with plenty of regular/warm water		
	without taking off clothes.		
	If appearance changes or pain occur, get medical		
	advice/attention.		

IF IN EYES	Rinse cautiously with water for several minutes.
	Remove contact lenses, if present and easy to do. Continue
	rinsing.
	If pain continues, immediately get medical advice/attention.
IF SWALLOWED	As this product is volatile, vomiting may increase risk.
	Immediately get medical advice/attention.
	Wash mouth out thoroughly with water.
	If unconscious, do not give anything by mouth.

## Most important symptoms/effects, acute and delayed;

May cause an allergic skin reaction.

Causes serious eye irritation.

Harmful if inhaled.

Suspected of causing cancer.

Suspected of damaging fertility or the unborn child.

Causes damage to organs.

Causes damage to organs through prolonged or repeated exposure.

May cause damage to organs through prolonged or repeated exposure.

#### Indication of immediate medical attention and special treatment needed, if necessary;

No information

#### **Section 5: Fire-fighting measures**

# Suitable (and unsuitable) extinguishing media;

# Suitable extinguishing media:

Keep away from aerosol products that might explode when exposed to high temperatures. Do not use water.

In case of a small-scale fire: dry chemical powder, carbon dioxide or alcohol resistance foam. In case of a large-scale fire: carbon dioxide, fire foam, dry chemical powder or dry sand.

#### Unsuitable extinguishing media

Direct water

#### Specific hazards arising from the chemical;

Aerosol containers may explode in fire.

# Content is highly flammable combustible liquid.

# Special protective equipment and precautions for fire-fighters;

Immediately extinguish a fire with fire extinguisher.

Use the specified fire extinguisher.

Immediately remove nearby flammable materials.

Take action from windward. Avoid breathing toxic gases (e.g. CO, NO<sub>X</sub>).

Ensure to wear suitable protective equipment (e.g. heat resistant protective clothing, protective glasses and self-contained compressed air breathing apparatus) in firefighting.

## Section 6: Accidental release measures

#### Personal precautions, protective equipment, and emergency procedures;

Appropriate protective equipment must be worn when handling spill of this material.

May cause organic solvent poisoning.

Hazardous to human health. This product has risk of acute or chronic effects.

Before taking any measures in the event of gas leakage (blowout), approach the spot from the windward side to empty out the gas container, with the leaking area facing upward.

Quickly remove ignition sources, high temperature materials or combustible materials from the surrounding. Evacuate people downwind from the fire. Keep out except responsible personnel.

Set up dry chemical powder or fire foam in preparation for ignition.

Pick up the gas container using tools made from materials that avoid impact/static-induced sparks (anti-spark).

Ventilate confined spaces before entering.

Wear suitable protective equipment (e.g. gloves, protective mask, apron and goggle).

Avoid release into the environment because spilled product may cause local effects.

In case of a small amount of spill, collect spilled product by absorbing in dry sand or sawdust and followed by placing it in a waste container.

If case of large amounts, prevent leakage and enclose by embankment.

Collect leakage into a closed container and then move to safe place.

Do not allow leakage to enter drains or sewers.

Dispose of contaminants or wastes in accordance with applicable laws and regulations.

#### Methods and materials for containment and cleaning up;

Immediately remove ignition sources nearby, and set up dry chemical powder or fire foam in preparation for ignition.

Do not walk over leaked materials more than necessary.

Use non-sparking tools.

#### Section 7: Handling and storage

# Precautions for safe handling

#### **Protective measures:**

Install appropriate equipment and wear suitable protective apparatus described in "Section 8: Exposure controls/personal protection".

For protection against static electricity, grounding all equipment and use explosion proof (increased safety type) electric apparatus. Take necessary measures against static electricity. Wear electro conductive work clothes and shoes.

Use anti-spark tools.

Handle the product in a well-ventilated area and accordingly store in a closed container.

If used in a closed place, install sufficient local ventilation equipment and wear suitable protective equipments during work.

Do not handle until all safety precautions have been read and understood.

Wear protective equipment to prevent from exposure.

Do not use fire, spark or high temperature materials around the product.

Do not spray on an open flame.

Containers may burst when exposed to high temperatures.

When transporting, avoid making impacts on container or handling violently. Load so that falling, dropping off or damage will not occur.

Wear suitable protective equipment to avoid contact with skin, mucosa, clothing, or eyes.

Do not contact, inhale or swallow this product.

Use only outdoors or in a well-ventilated area.

#### Advice on general occupational hygiene:

Wash hands thoroughly after handling.

#### Conditions for safe storage, including any incompatibilities

# **Technical measures:**

In the storage area, install adequate light and ventilation systems to handle hazardous materials. Take precautionary measures against static discharge.

#### **Incompatible materials:**

Strong oxidizers and strong alkali

#### Conditions for safe storage:

Keep out of reach of children.

Keep away from direct sunlight and store in a well ventilated place.

Because gas may leak or blow out from a rusted container, avoid storing this product in high-humidity environments near water sources.

Keep away from sources of ignition or heat.

Do not put this product at place over 40°C.

Electrical equipment used in the storage area must be explosion- proof and grounded.

#### **Packing material:**

Use the packaging container in accordance with regulations.

Occupational Exposure Limits;	
OSUA DEI	150

	$150$ 710 $(^{3})$ D $(1)$ $(1)$

	50 ppm (Cyclohexanone)
	15 ppm, 53 mg/m <sup>3</sup> (Vinyl acetate)
	15 ppm, 55 mg/m (vmyr acetace)

# Appropriate engineering controls;

Use explosion proof equipment.

Take precautionary measures against static discharge.

Install eye washer and safety shower around the handling place.

With the help of a ventilator, prevent the gas steam from staying afloat.

In handling this product, make sure that there are no high-temperature devices or potential ignition sources nearby.

If used indoor, install equipment to prevent workers from direct exposure, or provide local exhaust ventilation system to prevent workers exposed to vapors.

# Individual protection measures, such as personal protective equipment;

Respiratory protection	Wear gas mask for organic gases, dust mask and/or	
	air-supplied respirator (in confined spaces) if necessary.	
Hand protection	Wear solvent resistance protective gloves if necessary.	
Eye protection	Wear protective glasses (goggle or with a side plate) or face	
	protector if necessary.	
Skin and body protection	Wear protective clothing, boots or solvent resistance apron if	
	necessary.	

# Hygiene measure

Do not eat, drink or smoke during work. Wash hands thoroughly after handling.

#### **Other information**

No information

# Section 10: Stability and reactivity

#### Reactivity

This product may explode at 40°C or above. Static electrical charge may induce explosion.

## **Chemical stability**

This product is a flammable liquefied gas, which tends to form an explosive gas mixture with air.

## Possibility of hazardous reactions

This product contains high-pressure gas. This product may explode due to heating and shock. The use of this product in cars may cause smothering or lack of oxygen. Thoroughly ventilate car after use. Before ventilating, make sure of the absence of ignition sources nearby. Keep in mind that the gas tends to stay afloat at lower positions.

## Conditions to avoid

Storage under high temperature and humidity conditions and use near fire (ignition source such as flame or sparks).

# **Incompatible materials**

Strong oxidizers and strong alkali

#### Hazardous decomposition products

May produce toxic gases (e.g. CO, NO<sub>X</sub>) by inflammation.

#### Section 11: Toxicological information

# Symptoms related to the physical, chemical and toxicological characteristics;

Information on product:

Acute toxicity (dermal)	This product is classified Category 5 by GHS classification.
Acute toxicity (inhalation - vapors):	This product is classified Category 4 by GHS classification.
Acute toxicity (inhalation - mist)	This product is classified Category 5 by GHS classification.
Skin corrosion/irritation	This product is classified Category 2 by GHS classification.
Serious eye damage/irritation:	This product is classified Category 2A by GHS classification.
Skin sensitization:	This product is classified Category 1 by GHS classification.
Carcinogenicity:	This product is classified Category 2 by GHS classification.
Reproductive toxicity:	This product is classified Category 2 by GHS classification.
Specific target organ toxicity single	This product is classified Category 1 (liver, blood, respiratory
exposure:	system, kidneys, central nerves and central nervous system)
-	by GHS classification.
Specific target organ toxicity repeated	This product is classified Category 1 (kidneys and systemic
exposure:	toxicity) and Category 2 (blood) by GHS classification.
Other toxicological information	Contact of liquefied gas with skin may cause inflammation or
-	frostbite.

# Information on ingredients:

Butyl acetate		
Acute toxicity (oral):	Rat $LD_{50} = 14,870 \text{ mg/kg}$	
Other toxicological information	No information	
iso-Butyl acetate		
Acute toxicity (oral):	Rat $LD_{50} = 15,400 \text{ mg/kg}$	
Other toxicological information	No information	
Methyl isobutyl ketone		
Acute toxicity (oral):	Rat $LD_{50} = 2,080 \text{ mg/kg}$	
Carcinogenicity:	Methyl isobutyl ketone is classified Group 2B by IARC.	
Other toxicological information	No information	
Ethylene glycol mono- <i>n</i> -butyl ether		
Acute toxicity (oral):	Rat $LD_{50} = 500 \text{ mg/kg}$	
Carcinogenicity:	Ethylene glycol mono- <i>n</i> -butyl ether is classified Group 3 by IARC.	
Other toxicological information	No information	
iso-Butyl alcohol		
Acute toxicity (oral):	Rat $LD_{50} = 2,460 \text{ mg/kg}$	
Other toxicological information	No information	
Acetone		
Aquatic acute toxicity:	Fish (Lepomis macrochirus) 96h-TLm = 8,300 mg/L	
Aquatic chronic toxicity:	No information	
Cyclohexanone		
Acute toxicity (oral):	Rat $LD_{50} = 1,620 \text{ mg/kg}$	
Carcinogenicity:	Cyclohexanone is classified Group 3 by IARC.	
Other toxicological information	No information	
Diacetone alcohol		
Acute toxicity (oral):	Rat $LD_{50} = 4,000 \text{ mg/kg}$	
Other toxicological information	No information	
Vinyl acetate		
Acute toxicity (oral):	Rat $LD_{50} = 2,900 \text{ mg/kg}$	
Carcinogenicity:	Vinyl acetate is classified Group 2B by IARC.	
Other toxicological information	No information	

# Delayed and immediate effects and also chronic effects from short- and long-term exposure;

May cause an allergic skin reaction.

Causes serious eye irritation.

Harmful if inhaled.

Suspected of causing cancer.

Suspected of damaging fertility or the unborn child.

Causes damage to organs.

Causes damage to organs through prolonged or repeated exposure.

May cause damage to organs through prolonged or repeated exposure.

# Numerical measures of toxicity (such as acute toxicity estimates);

Acute toxicity was estimated based on ingredients of the product by additivity formula.

Section 12: Ecological information	
Ecotoxicity:	
Information on product:	No information
Information on ingredients:	
Polyvinyl chloride-polyvinyl acetate	
Aquatic acute toxicity:	No information
Aquatic chronic toxicity:	No information
Butyl acetate	
Aquatic acute toxicity:	A toxicity rank for aquatic life is $100 \sim 10$ ppm
Aquatic chronic toxicity:	No information
iso-Butyl acetate	
Aquatic acute toxicity:	A toxicity rank for aquatic life is 1000ppm.
Aquatic chronic toxicity:	No information
Methyl isobutyl ketone	
Aquatic acute toxicity:	Fish (Carassius auratus auratus) 24h-TLm = 460 mg/L
Aquatic chronic toxicity:	No information
Ethylene glycol mono- <i>n</i> -butyl ether	
Aquatic acute toxicity:	Fish ( <i>Carassius auratus auratus</i> ) $24h-LC_{50} = 1,700 \text{ mg/L}$
Aquatic chronic toxicity:	No information
iso-Butyl alcohol	
Aquatic acute toxicity:	Fish (Carassius auratus auratus) 24h-TLm = 2,600 mg/L
Aquatic chronic toxicity:	No information
Acetone	
Aquatic acute toxicity:	Fish (Lepomis macrochirus) 96h-TLm = 8,300 mg/L
Aquatic chronic toxicity:	No information
- •	

Cyclohexanone	
Aquatic acute toxicity: Aquatic chronic toxicity:	Fish ( <i>Pimephales promelas</i> ) 96h-LC <sub>50</sub> = 527 mg/L Fish (Bluegill sunfish) 48h-LC <sub>50</sub> = 460 mg/L No information
Diacetone alcohol	
Aquatic acute toxicity: Aquatic chronic toxicity:	Fish ( <i>Carassius auratus auratus</i> ) $LC_{50} = 12,250/8,930 \text{ mg/L}$
Vinyl acetate	
Aquatic acute toxicity:	Fish (Oryzias latipes) $LC_{50} = 2.39 \text{ mg/L}$ Fish ( <i>Lepomis macrochirus</i> ) 96h- $LC_{50} = 18 \text{mg/L}$ Crustaceans ( <i>Daphnia magna</i> ) $EC_{50} = 52/330 \text{ mg/L}$
Aquatic chronic toxicity:	No information
Dimethyl ether (as propellant)	
Aquatic acute toxicity:	No information
Aquatic chronic toxicity:	No information
Persistence and degradability:	
Information on product:	No information
Information on ingredients:	
Polyvinyl chloride-polyvinyl acetate	
No information	
Butyl acetate	
Readily degradable.	
iso-Butyl acetate	
Readily degradable.	
Methyl isobutyl ketone	
Readily degradable.	
Ethylene glycol mono- <i>n</i> -butyl ether	
Readily degradable.	
iso-Butyl alcohol	
Readily degradable.	
Acetone	
Degradable by activated sludge.	

# Cyclohexanone

No information

# Diacetone alcohol

Readily degradable.

## Vinyl acetate

Readily degradable (degradation by BOD = 90%) and bioaccumulative potential is low.

Dimethyl ether (as propellant)

No information

# **Bioaccumulative potential:**

Information on product:	No information
-------------------------	----------------

# Mobility in soil:

Information on product: No information

# Other adverse effects:

No information available at this time. However, be careful because the leakage or disposal of the product may cause affects to the environment.

#### Section 13: Disposal considerations

#### Waste treatment methods

Dispose of material waste in accordance with governmental regulations.

Prevent release of material into natural.

Incinerate in a where permitted by appropriate federal, state and local regulations.

Comply with all federal, state and local regulations.

Do not dump this product into sewers, on the ground or into any body of water.

Section 14: Transport information	n
UN number	1950
UN proper shipping name	AEROSOLS
Transport hazard class(es)	2
Packing group	-
Environmental hazards	Applicable
Transport in bulk according to Annex II of MARPOL 73/78 and IBC code	
	Not applicable

#### Not applicable

#### Special precautions for user

On transportation, keep containers under 40°C.

Perform loading making sure that overrun, fall down, or any damage does not occur.

Section 15: Regulatory information	
OSHA:	Hazardous chemical
TSCA inventory:	These substances are on the inventory or exempt from listing.
TSCA SNUR	Not listed

#### Section 16: Other information, including date of preparation or last revision

# Update history:

Date of issue: 1st April, 2015

#### **References:**

Information of Tamiya, Inc. ACGIH, American Conference of Governmental Industrial Hygienists (2014) TLVs and BEIs.

#### [Disclaimer]

This SDS has been prepared based on the best available information however, it may not be sufficient in some cases. It is user's responsibility to modify or update any contents in this SDS regarding information on hazardous properties and/or instruction for safe handling of the product when they become available. Precautionary measures in this SDS are only applicable for normal handling conditions and it is necessary to take appropriate additional measures to ensure safe handling which depend on your specific use conditions or situations.
