

Prepared for: Bente Nestling
Eurofins Product Testing A-S
Smedeskovvej 38
DK-8464 Galten

Sample described as: **Oliekridt**

Reference number(s): **G25-419**

Date received: 04/04/14

Date(s) assessed: 04/04/14-22/04/14

Intended use: Colouring on dark paper.

Foreseeable use: Product will get on the skin during use

Frequency and duration of use: Repeat use toy, duration of play possibly up to 60 minutes at a time.

Intended age of user: Over 3

Adult supervision required: Not defined

Description of sample: A pack of white crayons

**Conclusion:**

Further action required –
A presumption of conformity is dependent on the product complying with the relevant standards and requirements highlighted in the report.

Assessment carried out by:

Judith Russell
Consultant

Date: 22nd April 20104

Note: This assessment is based on the draft 'Technical documentation' guidance (Version 1.3 dd 02/12/13) published by the European Commission.

Harmonised Toy Standards that may be applicable to the particular toy;

- EN 71-1 2011
- EN 71-2 2011
- EN 71-3 2013

Other legislation/testing particularly relevant to the toy;

- Toy Safety Directive 2009/48/EC
- Packaging and Packaging Waste Directive 94/62/EC (as amended) - Packaging only
- REACH Regulation (EC) No. 1907/2006 (as amended)

1. Assessment of the toy for mechanical, physical, flammability and electrical hazards for which harmonised safety standards exist.

Identified hazard	Is the identified hazard fully covered by the requirements of the applicable Standard? Yes - conformity presumed No – EC type examination required
Choking hazard – small parts & detachable small parts	Yes
Flammability hazard	Yes

Are notices publishes in OJEU list of Standards applicable?	No
Does the toy present any risks that could be lowered?	No

2. Assessment of the toy for radioactivity hazards for which no harmonised safety standards exist.

Are any radioactive materials added?	No
---	----

3. Assessment of the toy for hygiene hazards for which no harmonised safety standards exist.

Indicator of possible risk of microbiological contamination	Is the risk present? Yes – refer to Notified Bodies protocol No – not applicable
Natural materials used (e.g. nuts, feathers)	Yes - clay
Liquids, gels, sticky material used	No
Cleaning requirement	
Is the toy a textile toy for children under 3 years	No

4. Assessment of the toy for chemical hazards for which some harmonised safety standards exist.

Harmonised standard relevant to the chemical hazards in certain toys	Is the standard relevant? Comments
EN 71-3 Migration of certain elements	Yes
EN 71-4 Experimental Sets for Chemistry and related activities	No
EN 71-5 Chemical Toys (sets) other than experimental sets	No
EN 71-7 Finger paints	No
EN 71-12 N-Nitrosamines and N-Nitrosatable substances	No
EN 12472 Method for wear and corrosion for the detection of nickel release from coated items	No
EN 1811 Reference test method for the release of nickel from products intended to come into direct and prolonged contact with the skin	No
ISO/TS 17234 Leather-chemical tests – Determination of azo-colourants in dyed leathers	No
EN14362-1 and 2 Textiles – Methods for the determination of certain aromatic amines derived from azo-colourants	No

Additional points to take into consideration	Is this point relevant to the toy? If Yes evidence of compliance with the specific requirement must be obtained and/or a risk assessment carried out
Does the toy contain any fragrances	No
Does the toy contain any plastic	No

Does the toy contain any rubber	No
Does the toy contain any plasticised material	No
Is the toy a specific type covered by EN71-9,10,11	Yes, solid materials intended to leave a trace (2B – colorants and 2C – polymers)
Is the toy a cosmetic product (Regulation (EC) No 1223/2009)	No
Is the toy likely to come into contact with food (e.g. toy tea cups) (EC Regulation 1935/2004)	No
Is the toy (or does the toy contain) a substance of mixture (e.g. poster paints, modelling compounds) (EC Regulation 1272/2008)	Yes
Is the toy (or does the toy contain) a ceramic article (84/500/EC)	No
Is the toy electrical and/or electronic equipment under RoHS (2011/65/EC) (e.g. racing car set)	No
Is the toy supplied with batteries (2006/66/EC)	No
Other hazard	None apparent

Note: This is not a detailed Chemical Safety Assessment and although it references chemical risks to be taken into account in general testing, it does not look at the detailed Bill of Materials.

Additional Labelling Notes: The GB warning currently on the packaging is not sufficient for toys standards: "Not suitable for children under 3 years as broken crayons may be swallowed" should be:

"Not suitable for children under 3 years. Small Parts. Choking Hazard"

The address of the manufacturer needs to be included on the labelling and the CE mark should be a minimum of 5 mm high.
